

**ABELINI PATTI'S
CASTLE BRINGS
SMALL FORTUNE**

Sold at Auction in London Today
For the Sum of
\$225,000.

**BIDDING WAS VERY
LIVELY FOR A TIME**

LONDON, June 18.—Craig-y-nos Castle (Baroness Rolf Oederstrom) was put up at auction this afternoon at the Mart, this city. It was bought in for \$25,000 after a dramatic scene caused by a false bid of \$20,000, which was the reserve price.

WHY PATTI SOLD.

Mrs. Patti's reasons for wishing to dispose of one of the most beautiful country seats in the United Kingdom are said by her agents to be twofold. In the first place, she desires to spend a good part of each year in Sweden with her husband's relatives, and in the second place, she finds that the Welsh climate does not thoroughly agree with her. Her life in the future will be spent in the country of her husband's birth.

AUCTION ROOM PACKED.

The auction room was packed with influential people and agents. Among those present was Baroness Oederstrom.

The bidding opened with an offer of \$25,000 made by a prominent London auctioneer. No other offer was heard, and Auctioneer Tulley declared Mrs. Patti's castle sold at that figure. Simultaneously the bidder rushed up and told Mr. Tulley he had no more to offer and to be taken seriously. Long conferences followed. Mr. Tulley went out and consulted Sir George Lewis, the well known lawyer. Excitement reigned throughout. A bidding of \$25,000 was made, and Mr. Tulley announced that he must buy in the property for Mrs. Patti, the reserve price being \$20,000.

DEADLOCK REACHED.

Sir George Lewis said that no proceedings would be taken and Mr. Tulley reopened the sale at \$20,000. By thousands and five hundreds the bidding quickly advanced. At \$25,000 a deadlock was reached, and Mr. Tulley announced that he must buy in the property for Mrs. Patti, the reserve price being \$20,000.

The committee arrives in San Francisco at 5 p. m. today. J. P. Taylor will interview the committee tonight and make arrangements for the visit to Oakland.

**LOS ANGELES REJECTS
WATER PROPOSITION.**

LOS ANGELES, June 18.—The City Council has definitely and finally rejected the proposition to pay the Los Angeles City Water Company \$2,250,000 for its improvements, allowing it to retain over a million dollars of profits that have accrued since the expiration of the company's lease in 1898. The proposition was submitted yesterday and included all the property claimed by the Crystal Springs Land and Water Company and by the East Side Water Company.

Last night, at a secret session of the Council, it is said that the water company's proposition came near being accepted. The Council standing 8 to 3 in favor of submitting the proposition to the people. There was a gradual change in sentiment, however, and this morning

**AN EPISCOPAL MINISTER
SHOOTS HIS BEST FRIEND.**

Rev. Charles G. Adams in Jail for Attempting to Murder Dr. J. G. Jessup at Berkeley—Prisoner Was Beating His Daughter When the Dentist Interfered.

Crazed by drink, Charles G. Adams, a retired Episcopal minister, undertook to beat his daughter last evening and when his friend Dr. John G. Jessup interfered he fired a bullet which plowed through the doctor's right lung. As a result Dr. Jessup lies in a precarious condition at his Berkeley home and Rev. Adams languishes in the Alameda County Jail expecting that at any time a charge of murder may be placed against him.

The trouble occurred at 7 o'clock last evening at the Adams home, 1801 Walnut street, Berkeley. Adams had been abusing his daughter, Agnes, and her brother Carl, and the girl went to the home of Dr. Jessup, half a block away, with a plea that the doctor intervene to shield them. Jessup returned with her and when he saw Adams he declared:

"You must not beat your children." "Do not come any nearer or I'll shoot you," shouted the drink-crazed ex-clergyman and almost immediately the shot was fired.

Adams was in his room at the time and he told the Doctor not to enter under penalty of his life.

DR. JESSUP'S NERVE.

No sooner had the shot been fired than Dr. Jessup caught the pistol, which he wrenched from Adams' hand and then using the weapon as a club beat the ex-minister almost into insensibility. In fact, he did not daunt until he himself fell to the floor unconscious.

When the shot was fired Miss Adams ran screaming from the building and was met by John Armstrong, who was passing and Chas. G. White who lives next door at 1700 Walnut street. Armstrong hurried to the scene and found Doctor Jessup lying upon the porch with the pistol beside him. The wounded man was taken to the home of T. S. Allen, 2101 Hearst avenue, where he lives and Drs. J. S. Eastman and D. C. B. Hoagland. The physicians located the

driving on the part of two young men resulting in the death of the 2-year-old child of George Lebachner, the serious injury of his wife and lesser injuries to three other children. Arthur Hartsell and Peter Dultzen attempted to pass the Lebachners on the road and the two buggies collided. Both vehicles upset, the baby being thrown out on its head. Mrs. Lebachner may die. Hartsell, who was injured, was arrested on the charge of manslaughter.

bullet under the left shoulder blade, the ball having entered between the heart and the breast-bone, piercing the lung as it plowed its course through the body.

During all the time Dr. Jessup displayed wonderful nerve and when brandy was offered to him he refused it, saying that he was determined to die a sober man.

ADAMS UNFROCKED.

After the shooting Miss Adams and her little brother took refuge in the White home, and Adams locked himself in a bedroom where the fight had taken place and from which Jessup had staggered to the porch, where he fell from a fall and lost of blood. Soon afterward Town Marshal Charles Kernis and Deputy Constable Colby appeared and when they made their presence known Adams unlocked the door.

"Come in and take me," he said, "Some one must take me, and you need have no fear that I will harm anyone else." Adams was taken at once to the County Jail and was then removed to the Receiving Hospital, where his wounds were dressed. Later he was taken back to the jail, where he finally fell off into a drunken slumber. The fight had sobered him somewhat but his talk was of a rambling order and it is said by the physicians that he is on the verge of delirium tremens.

This morning Adams was more rational about talking, but he declared, as he had last night, that he had nothing against Jessup, except that the latter had interfered in his domestic affairs.

ADAMS' STATEMENT.

When told by Deputy Sheriff Taylor this morning that Dr. Jessup was a trifle better Adams was greatly moved.

"Thank God for that," he said in a trembling voice. "This trouble is another of the results of strong drink," he continued. "I was drunk last night and I shot my best friend. I had nothing against Jessup, but he beat me up terribly after I had shot him. My daughter Agnes is 21 years old and my son, Carl G. Adams, is seven years younger."

"Dr. Jessup liked Agnes, but he was

**FOUND DEAD
ON THE STEPS.**

Young Man Murdered and His Body Thrown in Front of Sweetheart's Door.

SHAMOKIN, Pa., June 18.—Daniel Richards, aged 26, of Greentown, was found dead on the porch of the home of his intended bride at Mount Carmel today with a bullet hole in his right temple. He was to have been married today to Miss Elizabeth Walters, daughter of Henry Walters.

The young man called at the Walters house last night, and shortly after 10 o'clock started for his home, a distance of three miles.

No shot was heard during the night and the weapon has not been found.

The police believe that Richards was murdered and his body carried to the Walters home.

Miss Walters said there had been no quarrel between them, and that Richards appeared to be in unusually good spirits.

CHILLICOTHE, O., June 18.—A posse of farmers have surrounded a strip of woodland near here and the Sheriff has been sent for to assist in the capture of a desperado burglar who operated here last night on a wholesale scale.

The matter was taken up on the street, the desperado entered three residences, the last being James Carroll's, where he tried to assault one of Mr. Carroll's daughters. From there the burglar went to Klimikinnic, six miles north, where he entered the house of John Moss and attempted to assault Mrs. Moss, who was alone. She fought him off and aroused the neighbors. The robber fled and pursuit was given by a posse, who tracked him to a piece of woods, where they now have him surrounded. The farmers are armed with guns of all descriptions and are waiting for Sheriff Devine to arrive from this city. There is great excitement, and it is probable a lynching will follow if he is captured.

**FILIPINOS GOING
TO SURRENDER.**

MANILA, June 18.—Captain Andrew Rowan, of the Nineteenth Infantry is under investigation for the destruction of a town and thereby causing an active renewal of the insurrection in the island of Bohol. A native who had assassinated a corporal was caught and killed. Captain Rowan then burned an adjacent town and the people, inflamed with rage, rejoined the insurgent general, Samson.

ARBITRARY POWER.

One hundred and fifty former United States soldiers, a majority of them being employees of the civil department, have protested to General MacArthur against the alleged arbitrary exercise of discretionary authority on the part of the Civil Service Board. The law gives the board discretion to make a rule requiring the examinations of old employees and the board has not announced whether it will or will not require these examinations. All the protesters agree to resign rather than submit to examinations and will accept private employment unless the matter is settled quickly.

WILL FORCE THE RULE.

The members of the civil board say they have taken no action on the question involved, but have notified Lieutenant Colonel Crowder, the military governor's secretary, to send his clerks for examination. Colonel Crowder, in reply, asked for the certification of the rule under which the examination was required. Colonel Crowder says it would be inconceivable to spare one man and that the requirement is unduly stringent at the present juncture.

COMMISSION'S ATTITUDE.

The correspondent of the Associated Press asked Judge Taft what the attitude of the United States Commission would be. He replied that, officially, he was not aware that a remonstrance had been made. The board was authorized to determine the question, but on general principles, if the men threaten to resign rather than stand a reasonable examination, which was not competitive, he was in favor of letting them resign.

FILIPINOS TO SURRENDER.

Calles' insurgent troops are beginning to rendezvous at Pagsanjan, Laguna province, whence they will proceed to Santa Cruz on Laguna de Bay to surrender. The Americans are evacuating Pagsanjan at Calles' request. In the meanwhile the saloons in Laguna are closed.

This action is entirely apart from that taken in connection with Russian sugar and is a new development in the discriminatory duties imposed by this Government and the retaliatory duties imposed by Russia. The order of the Russian Minister is to take effect on next Friday, or two weeks from the date of its issuance.

**ASK FOR GRANITE FOR
THE NEW POSTOFFICE.**

Prominent Business Men of Oakland Request Senator Perkins and Congressman Metcalf to Use Their Best Endeavors to Have California Stone Used in New Government Building.

The following petition explains itself:

"To Hon. George C. Perkins, United States Senator, and Hon. Victor H. Metcalf, member of Congress from the Third District: Gentlemen—The undersigned citizens of Oakland request that you present to the officials of the Treasury Department a petition on our behalf for a change from sandstone to granite in the specifications for the postoffice building to be erected in this city. This public building is to be a permanent structure of an ornamental and distinguishing character, and therefore should be constructed of enduring materials that will most readily lend themselves to imposing architectural forms. Granite is far more durable than sandstone, and is much more suitable for a structure of the class and design of the new postoffice.

"Its use will not greatly enhance the expense and the additional cost will be more than offset by the added permanency and beauty of the structure. Granite of a superior quality and tint can be supplied by quarries in this State at moderate cost.

"As this is to be a California building, we suggest that it would be more appropriate to construct it of superior California granite than to build it with inferior material from abroad.

"However, our object is to have granite in preference to any other material used in the construction, because when completed the postoffice will be an ornament to the city and a notable feature of its architecture.

"We respectfully suggest that you request the Treasury officials to notify the contractor not to let contracts for supplying the stone till this matter can be considered and the citizens of Oakland have had an opportunity to be heard. Both you gentlemen reside in Oakland and are familiar with the wishes of our citizens, and we earnestly pray that you will use your best efforts to induce the Treasury Department to order the desired change, as being in accordance with sound business policy and in consonance with the general desire of the people the new building is intended to serve."

**TEN MILLION
WAS THE STAKE.**

BUTTE, Mont., June 18.—Judge Harley, in the District Court, this morning, awarded the Minnie Healy mine, valued at \$10,000,000, to E. August Heinze, deciding against Miles Finlen and the copper trust. Heinze bought the property from Finlen, who after spending \$55,000 in working the property, became discouraged and offered to Heinze for the amount expended. Heinze struck a rich copper vein within a short time and Finlen tried to get the property back and was assisted in his fight by the trust. Judge Harley's decision is the most sweeping victory Heinze has ever scored in Montana.

**DEL MONTE
FLYER WRECKED
AT SAN JOSE.**

Engineer Threw on the Air and Then Jumped For His Life.

**PASSENGERS WERE
NOT INJURED.**

SAN JOSE, June 18.—The Del Monte flyer on the Southern Pacific road, which leaves this city at 9:15 for San Francisco, was wrecked near the city limits this morning five minutes after it had pulled out of the depot.

RAN INTO LIGHT ENGINE.

The wreck was caused by a collision with a light engine which had just been run out of the round-house by the hostler in charge.

HE JUMPED FOR SAFETY.

Engineer Stewart, in charge of the fast train, when he saw a collision was inevitable, threw on the air and reversed his engine and then jumped for safety. He was hurled quite a distance and received a fracture of his right hip. The sudden application of the air slowed the train up sufficiently to break the force of the collision, but both engines were smashed and the passengers shook up considerably.

NO PASSENGERS INJURED.

None of the passengers was injured seriously. The light engine was literally torn to pieces by the impact of the collision. The tracks were cleared by noon and the big train proceeded on its way to San Francisco.

WILL CONTEST THE WILL

OF C. P. HUNTINGTON.

Princess Clara von Hatzfeldt and her titled husband are here for the purpose of getting evidence to contest the will of the late Collis P. Huntington. The call today announces that the purpose of this visit of the foster-daughter of Collis P. Huntington and the Princess von Hatzfeldt is nothing less than to gather evidence upon which to base a contest of the will of the railway magnate.

The Princess is now in Sacramento with her mother, Mrs. Prentice, and the Princess has made various explanations of her absence, to some inquiries saying she had gone to Burlington and to others that she had gone driving. The Princess refuses to discuss the proposed will contest and says the news will be given out to all the papers in due time.

The purpose of the visit of the Princess von Hatzfeldt to Sacramento is to procure, if possible, documentary evidence of her adoption by Collis P. Huntington, and if documentary evidence is not procurable, she will seek cumulative evidence that Huntington regarded her as his adopted daughter, and let it be generally understood that he had legally adopted her.

BETTENCOURT DID

NOT GET LICENSE.

The application of J. J. Bettencourt for a liquor license to conduct a saloon at 5333 Shattuck avenue, came up again before the City Council last night.

Professor Wallace stated that he had viewed the location, and that he regarded it the poorest place in the world to start a saloon.

"Bettencourt appears to be a very honorable man," said the Professor, "but his friends ought to protect him from this hazardous undertaking of paying \$400 for a license. If he can make it pay, it goes to show the enormous profit on this class of goods. The neighborhood does not want the saloon. I know this Council has been granting most licenses asked for, but we should call a halt."

Councilman Boyer replied: "I don't see why Mr. Wallace should complain about this man's application, when he didn't object to one in his own ward. If the man is willing to take a chance, it's his own risk and not ours. However, I move the application be laid over for a week."

Wm. Walsh's Capable Employees are Rewarded

M. J. O'Dea and David Boyle Continuing the Success of the Junction Cash Grocery Store.

The Junction Cash Grocery was established by William Walsh in 1874. It has been one of the most pronounced successes in the business world of Oakland. Mr. Walsh has taken into partnership two of the finest young business men in this city. The original success continues. We must make way for new goods. Everything, in season, will be new, as it has always been, and for that reason, for the next thirty days, everything on hand will be sold at lowest reasonable rates. Standard groceries and the purest of Irish and American whiskeys, for family use, will always be at the command of our patrons at lowest possible prices.

WILL USE OIL ON FERRYBOATS

Southern Pacific Company Will Start a New Deal—Railroad News.

Coal will soon be a thing of the past on the Southern Pacific ferry steamers, and fuel will soon be stored in tanks instead of bunkers. Arrangements are being made to substitute crude petroleum burners for the coal grates under the boilers of the steamer Oakland.

In pursuance of the application of Captain William T. McKenzie, master mechanic of the Southern Pacific Company, permission to use oil as fuel on the steamer Oakland was granted yesterday by Federal Inspectors of Steam Vessels Bolles and Bulger. Applications for the same privilege on the other ferry boats will probably be filed today.

This change is in line with the general adoption of oil as a fuel on the Company's locomotives. Careful experiments have demonstrated the efficiency and cheapness of this fuel and, as fast as oil burners can be installed on both locomotives and steamers, coal will give way to petroleum.

BOATS HAVE HARD TIME. For forty minutes last night a boatload of passengers fretted and fumed on the decks of the Berkeley while the ferry-boat was unsuccessfully endeavoring to make a landing on this side of the bay. Twice the Captain of the Berkeley tried to guide her into the slip, but both times the strong flood tide carried her out of the true course and quick reversing of the engines was all that saved the boat from crashing into the slip.

While the Berkeley was cruising back and forth along the front, unable to overcome the force of the tide, the Bay City also arrived, but was unable to land on account of the Berkeley's antics. Finally at half-past 10 the strength of the incoming tide lessened somewhat and two boat-loads of exasperated passengers were safely landed.

KRUTTSCHNITT RETURNS.

General Manager Kruttschnitt of the Southern Pacific Company has returned from the conference of Southern Pacific, Union Pacific, and Northern Pacific officials held at Ogden a few days ago. In discussing the matter yesterday he said that President Marvin Haight, General Manager W. A. Garrison, and Vice-President H. E. McCullough of the Chicago and Northwestern, President Horace G. Burt and General Manager E. Dickinson of the Union Pacific were present, besides President Charles M. Hays and himself.

"We discussed a number of matters affecting the through passenger service between here and Chicago," he said, "but they were all largely in the nature of suggestions on matters of small interest to the public. We decided upon no radical changes. There will be no modification in the running time of through trains until the change in the grades on the Central Pacific and the Ogden-Lucien cut-off which have been planned have been accomplished. While the Union Pacific and Northwestern are doing better than we are in the matter of time, they realize that under present conditions we cannot shorten our time until we reduce our grades and straighten out our line. If these changes are carried out as planned, we will be able to make some material reductions in our running time to Ogden."

STUBBS IS PROMOTED.

A dispatch from Chicago says: "All the roads in the Middle West and Northwest in which E. H. Harriman, J. P. Morgan, the Vanderbilts and J. J. Hill are interested hereafter will be practically under one management. J. C. Stubbins, now third vice-president of the Southern Pacific, will be the traffic expert or manager for the Harriman group of roads, while Daniel Miller, second vice-president of the Great Northern, will occupy a similar position for the Hill roads. Both will have offices in Chicago."

CADETS WILL GIVE

A MINSTREL SHOW.

A minstrel and vaudeville entertainment will be given July 2nd by Company N of the League of the Cross Cadets, assisted by the Army and Navy Parlor of the N. S. G. W. The entertainment will be given at St. Francis de Sales Hall on Grove and Twenty-first streets.

The purpose of the entertainment is to raise a fund to purchase new uniforms. Of late the membership of the company has been increased and new uniforms are required. It is desired to have all of the cadets march in new uniforms in the Fourth of July parade. The San Francisco regiment and band will also take part in the parade.

The committee in charge of the entertainment consists of Captain J. A. Kennedy, Lieutenant J. McBryan, Lieutenant W. Carey and Sergeant Leonard. Local and San Francisco talent will take part in the entertainment.

MINISTER SHOTS BEST FRIEND.

(Continued From Page 1.)

An old friend of the family and I did not object to that. It was only that he tried to interfere with me when I was drunk that the trouble occurred.

"Of course, I am repentant today, but I can do nothing to undo what has been done. I am an old newspaper man and know that I ought not to talk until I have seen an attorney. I expect my brother here soon, and then we will arrange about an attorney. My brother is W. J. Adams, a mining engineer of San Francisco."

A SORRY SIGHT.

Adams presented a sorry sight. He has several deep deep wounds and abrasions and lacerations of the face. His left eye is almost closed and one of his ears is beaten to a pulp. It was necessary to give him frequent potatoes of whiskey during the day, and he complained often of his heart troubling him.

ANOTHER STATEMENT.

The statement made by Adams after his arrest last night was as follows:

"Dr. Jessup is one of my best friends. I wouldn't have shot him if he had kept out of my room. When he came into the house and I heard him shouting at the stairs, I called to him to keep out, as I was dangerous. He persisted in coming, however, and I carried out my threat and shot him. I should have done the same to any one who entered my room at that time. Jessup has been all together too intimate with me and I am, although I should not have shot him on this account. He is a married man, but is not living with his wife. Jessup is about 35 years old, and I did not like the idea of his paying such marked attention to my girl. After I shot my man he grappled with me and succeeded in gaining the possession of my revolver before I could shoot again. He then beat me with the pistol. I do not blame him for this action, and hope that he is not seriously hurt. I was insane when I shot him."

JESSUP DIVORCED.

Dr. Jessup is a middle-aged man, having been born in Wisconsin about 55 years ago. He was married, but he and his wife separated about six years ago. Where the wife is now is not known, even by Jessup, although it is supposed that she is somewhere in California.

Dr. Jessup came to California when a child and lived for years in Eddards. About five years ago he came to Berkeley, where he has since lived and has practiced his profession of dentistry. He is quite well known in the city, and is the owner of the Edge of Red Mt. Building, Marston House Company. He is also a member of Lookout Mountain Post, Grand Army of the Republic.

REV. ADAMS ARRESTED.

Rev. Charles C. Adams was born about fifty years ago in Delaware county, N. Y. He was ordained as a deacon in the Episcopal Church in 1872 at Canby, Knox county, O., and as a priest in 1875 at Canby, Greene county, O. He held the pastorate of St. James' Chapel in New York city, also of the Church of the Incarnation in the same city. He also filled pulpits in Fremont and Cincinnati, O. His last charge was St. Andrew's, in Oakland, from which church he was dismissed on account of habitual intemperance. He is a widower and has two children, a son, Carl G. Adams, aged 14 years, and a daughter, Agnes, aged 11. His brother, W. J. Adams, is a mining engineer, with offices at 44 California street, San Francisco. Before entering the ministry Adams was a newspaper man, working for the San Francisco Examiner and the San Francisco Chronicle. He has been employed in a restaurant, but has been dabbling in oil stock and claims the title of oil engineer.

JESSUP'S STATEMENT.

After the shooting Jessup was told that he could not live, and he made the following ante-mortem statement:

"This evening, soon after dinner Miss Agnes Adams came to Thomas S. Allen's house, at the corner of Eleventh and Shattuck avenues, and requested me to come to her home to protect her from her father's abuse. I entered the house with her and walked into a bedroom, where I was met by her father, Charles G. Adams. I did not show any force or threaten Adams in any way. I simply told him that he must not abuse his daughter, whereupon he shot me. I then jumped on him and smashed his face and beat the devil out of him."

BEAT HIS CHILDREN.

Last evening's affair was the culmination of a series of debauches which have lasted almost since the time of Adams' dismissal from the West Oakland Church. The neighbors in Berkeley say that ever since Adams moved to Berkeley two years ago he has gone upon frequent sprees and that during such times he has ill-treated both his children. It is claimed that Jessup, who was one of Adams' closest friends, was the only one who seemed to have any influence with him, and that he was called upon at such times by Miss Adams.

Stories of ill treatment are told by Miss Vera White, who says she has always considered Adams to be insane. She is corroborated by Mrs. C. G. Allen, J. D. Mortimer and others.

ADAMS A DRUNKARD.

It is stated that Adams since he left the ministry has twice been taken from homes for inebriates by a wealthy sister who lives in the East and that the last debauch was the result of the receipt by Adams of \$500, which was sent by the sister. This money is now almost gone.

W. J. Adams, brother of the ex-minister, called at the home of A. Stuenkel, where Miss Adams has been staying since the shooting, this morning and then went to visit Dr. Jessup. Afterwards W. J. Adams was asked by Mrs. Allen if he would visit his brother and he replied that he thought not, as he had no desire to see even a brother who would shoot his best friend.

DR. JESSUP BETTER.

This afternoon Dr. Hoagland stated that Dr. Jessup was some better and that, if complications did not set in, he might recover.

Since the shooting Dr. Jessup has turned over all his property to T. S. Allen, with whom he lived.

A detective from San Francisco called at the Allen home today to see if Jessup did not desire his wife and child, but Dr. Hoagland would not allow him to see the patient. The detective stated that the wife and child were living in Marin county.

DR. ROWELL TALKS.

BERKELEY, June 18.—Dr. Herbert N. Rowell, who has been the Adams family physician, today made the following statement:

"The shooting is the result of a protracted feud, in which the father has kept the son and daughter in peril. After the mother of the girl died, the girl became the guardian of her brother, so that she had practically been his mother for the last eleven years. She has an income of her own from the estate of her mother and from this she has been supporting the entire family. The mother dispossessed Adams of all interest in her estate."

"Friday Jessup came to me and told me that Adams' treatment was making his daughter sick. I told him to send her to me, and when she came I found that her vocal cords were paralyzed because of fright brought on by hysteria."

"I sent her to a specialist and he told her that she would need absolute quiet to regain her health. Jessup and I spoke to the marshal with the intention of having Adams looked after. Sunday afternoon Jessup telephoned me that there was trouble again at the Adams house. I advised him to have Adams arrested for disturbing the peace. Monday I found no action had been taken and yesterday I went to dinner at Oakland and telephoned to District Attorney Allen, but could not find him."

"Yesterday evening Adams telephoned to the Stuenkel house and asked if Agnes was there. Mrs. Stuenkel replied that she was not, and he said that if she would go to his house he would tell her his family troubles. The girl, becoming alarmed, telephoned to Jessup and they went together to the Adams home. As they entered the house Adams fired. Adams had previously told his daughter that if he ever saw her coming into the house with either Jessup or myself he would shoot."

N. A. McConaghy of San Francisco has been retained to defend Rev. Adams.

SENSATIONAL CASE

IN POLICE COURT.

The case of Mrs. Mary Bull and Clarence Bassett, charged by the husband of the woman with a statutory offense, involving the fidelity of the wife, was brought to trial in the Police Court this morning. The testimony of Mrs. Bull's two minor sons was of the most sensational order and divulged a most startling condition of affairs in the Bull household.

At noon an adjournment was taken till 1:30 this afternoon.

GREAT RACING MEETING IN ENGLAND TODAY.

ASCOT HEATH, England, June 18.—The aristocratic race meeting on the Royal Heath opened today with cold, gloomy weather, but though short of his chief attraction—the royal procession and the attendance of the members of the royal family—the migration of fashionable London into Berkshire promises to make the meeting the usual great social success.

All the great horses of the year are engaged in one or more events, and upwards of 150 have already arrived here to contest for the rich stakes, aggregating in the neighborhood of £40,000.

The racing opened promisingly for the Americans. W. C. Whitney's Warble (H. Reiff) winning the trial stakes of 10 seven-year-olds, with £500 added.

Sterling Balm won the Coventry stakes of £10 each, with £1,000 added. Port Blair (Henry) was second, and W. C. Whitney's Mount Vernon filly (J. Reiff) was third.

ALL DANGER PASSED

FOR THE PRESENT.

WASHINGTON, June 18.—Doctors Johnston and Rixey held a consultation at the White House this forenoon, at the conclusion of which Dr. Johnston pronounced Mrs. McKinley as convalescing. He said there may, of course, be a recurrence of her trouble, but for the present the danger is past. Dr. Johnston said that the blood infection had disappeared entirely.

Dr. Rixey, although evidently encouraged by the improvement in Mrs. McKinley's condition, was somewhat more conservative in statement than Dr. Johnston. He thought it scarcely safe to say that she was entirely out of danger, as her extreme weakness might precipitate relapse, but her condition was quite satisfactory, her improvement being steady. It is expected that President and Mrs. McKinley will be able to leave for Canton by July 1st.

HE WAS STABBED BY HIS WIFE.

A. M. Forbes, an iron moulder residing at 1008 Fifth street, quarreled with his wife early about 1 o'clock this morning, and as a result sustained a severe wound on his wrist. His wife stabbed him with a case knife. About 2 o'clock in the morning Forbes came to the Receiving Hospital to have the wound dressed. He was bleeding profusely. His injury was dressed by Warden Page. It required eight stitches to close the wound.

According to Forbes' statement, he was to have gone to Keswick this morning, where a position is awaiting him. He has been out of work for some time, having walked out with the strikers at the Union Iron Works. During the evening Forbes took a number of drinks. When he returned home he and his wife quarreled over the money that was to have paid for his trip to Keswick. The row ended by Mrs. Forbes stabbing her husband in the wrist. Forbes has postponed his trip to Keswick pending the hearing of the wound.

"This is not the first time my wife and I have had an affair of this kind," he said. "She has an awful temper and I get the benefit of it."

CABINET HOLDS A MEETING.

WASHINGTON, June 18.—The Cabinet meeting today was without important feature. There was desultory discussion of the Chinese settlement, the situation in the Philippines, Cuba and Porto Rico, but nothing of moment developed and no action was decided upon. The President is prepared to issue his proclamation declaring the abolition of duties between the United States and Porto Rico.

The Cabinet was called to an extraordinary session called for July 4 presents facts to him to sustain the claim that the revenues under the Hollander law make the island self-sustaining.

The Chinese settlement, which the Chinese settlement is close at hand. In talking of this settlement, Secretary Hay suggested that the amounts voluntarily paid the American missionaries by Chinese provinces should be deducted from our aggregate claim of \$25,000,000. The general sentiment of the Cabinet seemed to favor this action, but no action was taken. Secretary Hitchcock reported that a decision of the courts in the suits to enjoin him from opening the Kiowa, Comanche and Apache reservations in Oklahoma probably would be rendered in a few days. Until the court acts nothing further will be done.

THEY DID NOT

STAND BY THE WILL.

Judge Ellsworth this morning handed down a decree ordering a distribution of the estate of the late James A. Johnston. The property is to be distributed according to a compromise agreed upon by the widow, Mrs. Margaret Johnston, and the other heirs.

The executor's account shows \$58,355.34 received and \$15,401.15 expended, leaving a balance of \$14,954.19 to be distributed. The will provided that the widow was to have the income from the estate during her lifetime, after which the property was to go one-third to William Johnston, a brother, and the remainder to his sisters.

According to the compromise, the widow is to receive one-half of the property, amounting to \$29,952.33. William Johnston is to receive a cancellation of notes owed by him to his late brother, amounting to \$5,500; Christian Lucas and Louisa Catherine Lucas are to receive \$500 each; Margaret Books, Ellen Allen and Christina McBride, the three daughters of James A. Johnston, are to receive, amounting to \$4,955.34 each. The other fourth of the residue is to be divided equally among Guy L. Johnston, Ellen M. and Maggie Van Eman, nephews and nieces.

When the Gled Johnston had on deposit in bank the sum of \$5,268.50, George L. De Golia represented the estate in court.

REVISION COMMITTEE

MEETS IN PITTSBURG.

PITTSBURG, Pa., June 18.—The Creed Revision Committee appointed by the last General Assembly of the Presbyterian Church in Philadelphia met here today for the purpose of revising the constitution and members. It is expected that the committee will be in session all week.

The meeting was opened with prayer, after which the action of the last Assembly concerning the committee was read by the Rev. Dr. William Henry Roberts of Philadelphia, secretary of the committee. All action of the Assembly as to revision was read and discussed, with some difference of opinion as to its meaning.

The committee decided to get down to business at once and make "part to do something at the first meeting. Three or four other meetings will be held during the year, probably in New York, Chicago and Washington."

GRAND JURY INDICTES

FATHER AND BROTHERS.

KANSAS CITY, June 18.—The Grand Jury today indicted C. W. Prince, Will Prince and Bert Prince, father and brothers of Lulu Prince-Kennedy, as accessories to the murder of Philip H. Kennedy, for which Mrs. Kennedy was found guilty last Saturday and given a ten years' penitentiary sentence. The Prince brothers were arrested last February on information filed by Prosecutor Hadley. TIES UP SALARIES.

SAN JOSE, June 18.—Henry Miller, who was a student in the State Normal School here and who under a ruling of the State Board of Trustees was refused a certificate of graduation because of "inaptitude for teaching," has taken a new task to compel the faculty of the San Jose school to come to terms. He has secured an execution attachment for costs in a suit at law he brought and the sheriff has levied on bank accounts of every member of the faculty of the school, tying up all their money except the small change usually carried in their purses. Summer vacations and new frocks are beyond reach of the teachers until the attachments are released.

GREAT FEAST OF THE PEACHERINGS

Haywards' Prominent Citizens
Join the Merry Band and
Make Speeches.

HAYWARDS, June 18.—Sunday the Peacherings gave a barbecue which was by far the greatest outing in the community for years. The first thing on the program was the feast.

It consisted of rare dishes cooked and served under the direction of Peter Morilla, who is authority on all matters pertaining to a feast. After the feast, which lasted for several hours, speeches were made.

G. S. Langan spoke on America. The address fired the patriotic crowd. The applause which followed was deafening. Dr. A. J. Powell spoke on California, which also brought mighty applause. George A. Oakes made a very able address on the present condition of Berkeley and a number of others spoke on various subjects.

After the speaking came the musical part of the program. The Forsters' Band, which is one of the best, started out with a number of lively tunes. Will Rogers and Manuel Rosendo played several pieces on the mandolin and guitar.

J. Thornyke and Manuel Rios rendered solos on the cornet. Tony Enos treated the club with several vocal songs. Tony has a tenor voice, and the crowd were loath to let him quit. He was called back again and again, until finally, out of breath, they cheered him a rest.

There were about forty members and their friends present. They consisted of the principal business men about town.

The feast was spread under an immense oak on two long tables, which were crowded with one of the jolliest crowds ever gathered together at one time.

The affair was gotten up under the supervision of G. S. Langan and Frank J. Hoelling, to which gentlemen the success of the feast is largely due, although each member helped.

Every one is sure from tramping over the hills, and it will be some time before they can all settle down to business.

At 12 o'clock supper was served, after which the crowd left, all having had the best of times.

FIRE DESTROYS LIVERMORE HOME

Passengers on the Tesla Coach
Try to Save the Furniture.

LIVERMORE, June 18.—The dwelling of A. Sigeloff on the Townsend Ranch, about four miles east of town, was burned to the ground on Sunday afternoon.

The fire caught in the kitchen from a defect in the stovepipe. The Tesla stage was passing as the fire broke out and the passengers endeavored to save the furniture, but were not successful, everything being a total loss with no insurance.

Mr. Sigeloff also lost his large stable horses and his dwelling by fire last year. He seems to be rather unfortunate.

The social dance given by the Danish Lodge on Saturday night was largely attended.

William Boehmer of Oakland was in town yesterday.

Mrs. Catherine Taylor and daughter are visiting friends in June.

They came to San Francisco in attendance at the Grand Grove of Druids as a delegate from the Livermore Grove.

Henry La Prouz of San Francisco was visiting his mother yesterday.

The soldier boys in camp at Santa Cruz report they are having a most enjoyable time.

"Chairman Parade Committee."

The clerk was instructed to reply at once and to state that the offer would be gladly accepted by the Board.

The communication from the Contra Costa Water Company, objecting to the sprinkling of the streets with salt water was read and the clerk instructed to inform the Water Company that the agreement between that company and the city had not been violated, as it has been the custom of the city to use salt water on the streets for the past ten years.

The Clerk was instructed to advertise for bids for all to be used in the Electric Light plant during the ensuing year. Specifications as to the quality of the oil were filed.

Mrs. White filed a complaint against Police Officer Keyes, charging him with using abusive language and disturbing her peace.

A communication from William H. Webb requesting a reduction in the price of power secured from the city electric light plant and used by him in operating his automobile, was denied.

The stalls in the Webb avenue and Fourth street fire houses were ordered repaired.

There being no further business to come before the Board the meeting adjourned.

The inquest will be held at the Sweet Briar ranch Friday.

It was supposed that Regusol had left for Los Angeles, and several attempts were made to locate him. Though it is a clear case of suicide, his friends can assign no reason for the rash act.

Abbott, a graduate of the Chico State Normal School; William C. Spencer, now teaching in the Mount Taino Military Academy at San Rafael, and Howard C. White of the last graduating class. BURIAL ORDINANCE FAILED TO PASS.

Councilman Courtney's ordinance to compel payment of a \$1 fee for every burial permit issued was defeated last night. Courtney first moved an amendment to strike out the clause prohibiting the carrying of dead bodies over Broadway and Washington streets, but even with this feature eliminated the ordinance did not go through.

There was considerable discussion over the matter.

Councilman Wallace wished to know "who is to pay the fee, the undertaker or friends of deceased?"

President Schaffer replied that while the undertaker would probably put up the fee, without doubt the friends of deceased will eventually have to pay the fee.

Councilman Fitzgerald said he thought the amount of the fee—\$1—was so small, it wouldn't pay to collect it.

"Is that so?" said Mr. Courtney. "Well, it'll amount to just about \$250."

But the ordinance failed to pass.

BARBERS VOTE AGAIN TO CLOSE ON SUNDAYS.

There was another midnight session of the Barbers' Union last night, and after a heated debate it was finally determined by a vote of 7 to 20 that on and after the first Sunday of July all barber shops must remain closed on Sundays. The opposition was of the most bitter kind, and many barbers remained away from the meeting, because either they were opposed or indifferent. This was the third taken on the matter of Sunday closing.

On the first occasion the proposition carried by a majority of one. On the second vote there were 7 in favor and 40 against.

It is even now believed that this final action is only for a time, and if it is later found more advantageous to keep open Sundays the rule will be changed again.

Some of the barbers will refuse to stand by the ruling and will keep open on Sunday.

WICKED WILL BURN FOREVER.

Such Is the Doctrine Preached by an Alameda Minister.

ALAMEDA, June 18.—In a sermon on "Hell," delivered in the Christian chapel last evening, the Rev. Dr. J. W. Ingram, the pastor, expressed the belief that the wicked may burn in hell forever.

"It is to be feared," said Dr. Ingram, "that the awful punishment of the burning place where the ungodly must go after death will know no end; that the punishment will go on forever. From the Scriptures we may draw the following conclusions:

"First—There is such a thing as punishment after death—at least until sin has been adequately punished.

"Second—That there is a place of punishment, and that place is most loathsome.

"Third—That men go to this place not because God has decreed, but because they have selected a life that logically leads to such a destiny.

"Fourth—That the exact nature and duration of this punishment have not been clearly indicated in the Scriptures, but that in every instance where the Bible places the sinner in a place of punishment after death he is left there with no promise of release.

"Fifth—It seems left to man to devise a way for his escape. Human wisdom would suggest that we leave the whole matter just where the Bible leaves it. If God can be trusted in any matter, surely we may trust Him to do right in this case."

Dr. Ingram asserted it as his belief that all the figurative language in the Bible could not adequately show forth the awful condition arising from a life of sin and crime.

MINISTER RIDES IN THE PATROL WAGON.

Police men are no respecters of persons, when it comes to violating the bicycle ordinance. Preachers, college professors and all are alike to them. The latest victim is the Rev. William Horace Day, who is filling the pulpit of Rev. Charles R. Brown at the First Congregational Church. He rode in from Berkeley on his wheel the other night, without a light, while his wife rode on the car. He was arrested and taken to the City Prison in the patrol wagon, and had to appear in the Police Court where he had to pay the regulation fine of \$2.

EXCELLENT PERFORMANCE AT THE DEWEY THEATER.

The double bill at the Dewey Theater last evening drew a crowded house. "What Tompkins Did" was one of the funniest sketches ever seen at the theater. The Chinese play, "First Born," was the great drawing card, though. It was produced at the Dewey better than it was presented at the Alcazar in San Francisco. Mr. Stevens deserves a great credit for giving such a fine performance.

MISS PEARL HUMPHREYS MAY BE SEEN HERE.

Miss Pearl Ola Humphreys, the talented Oakland girl who made such a hit back East where she has been engaged during the past couple of seasons at the leading New York theaters, will probably be induced to forego the vacation she is enjoying at her home here and accept a couple of months' engagement at the Alcazar across the bay.

Manager Thall realizes that her appearance would be a popular card for the house owing to her many friends and acquaintances here, and a contract will probably be signed during the next few days.

Miss Humphreys' stay on the Coast will be necessarily limited, however, as she is under contract for the leading role in Sullivan & Harris' "The Fatal Wedding," to be produced in New York this August, after which she is booked for Dave Belasco's new play, the staging of which, is expected in December. Her success has been very pronounced ever since she entered upon her theatrical career, and a brilliant future is predicted for her by the Eastern managers. Her brother, Oswald, also a New York Theaterman, accompanied her to the Coast and will join the Alcazar Stock Company for a season or two.

ADELINI PATTI'S
CASTLE BRINGS
SMALL FORTUNE

Sold at Auction in London Today
For the Sum of
\$225,000.

BIDDING WAS VERY
LIVELY FOR A TIME.

LONDON, June 18.—Craig-y-nos Castle, the residence in Wales of Adelini Patti (Baroness Rolf Cederstrom), was put up at auction this afternoon at the Mart, this city. It was bought in for \$25,000 after a dramatic scene caused by a false bid of £50,000, which was the reserve price.

WHY PATTI SOLD.

Madame Patti's reasons for wishing to dispose of one of the most beautiful country seats in the United Kingdom are said by her agents to be twofold. In the first place, she desires to spend a good part of each year in Sweden with her husband's relatives, and, in the second place, she finds that the Welsh climate does not thoroughly agree with her. Her life in the future will be spent in the country of her husband's birth.

AUCTION ROOM PACKED.

The auction room was packed with influential people and agents. Among those present was Baron von Cederstrom. The bidding opened with an offer of £50,000 made by a prominent London auctioneer. No other offer was heard, and Auctioneer Tulley declared Madame Patti's castle sold at that figure. Simultaneously the bidder rushed up and told Mr. Tulley he had not meant his offer to be taken seriously. Long conferences followed. Mr. Tulley went out and consulted Sir George Lewis, the well known lawyer. Excitement reigned throughout the bidding, and when the bidding was over, remained in his seat, perspiring, with eyes of all present upon him.

DEADLOCK REACHED.

Sir George Lewis said that no proceedings would be taken and Mr. Tulley reopened the sale at £20,000. By thousands and five hundreds the bidding quickly advanced. At £45,000 a deadlock was reached and Mr. Tulley announced that he must buy in the property for Mme. Patti, the reserve price being £50,000.

LOS ANGELES REJECTS
WATER PROPOSITION.

LOS ANGELES, June 18.—The City Council has definitely and finally rejected the proposition to pay the Los Angeles City Water Company \$2,550,000 for its improvements, allowing it to retain over a million dollars of profits that have accrued since the expiration of the company's lease in 1888. The proposition was submitted yesterday and included all the property claimed by the Crystal Springs Land and Water Company and by the East Side Water Company.

Last night, at a secret session of the Council, it is said that the water company's proposition came near being accepted, the Council standing 6 to 3 in favor of submitting the proposition to the people. There was a gradual change in sentiment, however, and this morning

WANT TO BE POLICEMEN.

The scene was one of a big boys' class with Chief Hodgkins as superintendent, Secretary Jackson as teacher and the Police Commissioners as the faculty.

AN EPISCOPAL MINISTER
SHOOTS HIS BEST FRIEND.

Rev. Charles G. Adams in Jail for Attempting to Murder Dr. J. G. Jessup at Berkeley—Prisoner Was Beating His Daughter When the Dentist Interfered.

Crazed by drink, Charles G. Adams, a retired Episcopal minister, undertook to beat his daughter last evening and when his friend Dr. John G. Jessup interfered he fired a bullet which plowed through the doctor's right lung. As a result Dr. Jessup lies in a precarious condition at his Berkeley home and Rev. Adams languishes in the Alameda County Jail expecting that at any time a charge of murder may be placed against him.

The trouble occurred at 7 o'clock last evening at the Adams home, 1801 Walnut street, Berkeley. Adams had been abusing his daughter, Agnes, and her brother Carl, and the girl went to the home of Dr. Jessup, half a block away, with a plea that the doctor intervene to shield them. Jessup returned with her and when he saw Adams he declared:

"You must not beat your children."

"Do not come any nearer or I'll shoot you!" shouted the drink-crazed ex-clergyman and almost immediately the shot was fired.

Adams was in his room at the time and he told the Doctor not to enter under penalty of his life.

DR. JESSUP'S NERVE.

No sooner had the shot been fired than Dr. Jessup caught the pistol, which he wrenched from Adams' hand and then using the weapon as a club beat the ex-minister almost into insensibility. In fact, he did not desert until he himself fell to the floor unconscious.

When the shot was fired Miss Adams ran screaming from the building and was met by John Armstrong, who was passing and Chas. G. White who lives next door at 1799 Walnut street. Armstrong hurried to the scene and found Doctor Jessup lying upon the porch, with the pistol beside him. The wounded man was taken to the home of T. S. Allen, 2101 Hearst avenue, where he lives and Drs. J. S. Eastman and D. C. B. Hoagland. The physicians located the

bullet under the left shoulder blade, the ball having entered between the heart and the breast-bone, piercing the lung as it plowed its course through the body.

During all the time Dr. Jessup displayed wonderful nerve and when brandy was offered to him he refused it, saying that he was determined to die a sober man.

ADAMS UNFROCKED.

After the shooting Miss Adams and her little brother took refuge in the White home, and Adams locked himself in a bedroom where the fight had taken place and from which Jessup had staggered to the porch, where he fell from exhaustion and loss of blood. Soon afterward Town Marshal Charles Kersia and Deputy Constable Cohey appeared and when they made their presence known Adams unlocked the door.

"Come in and take me," he said. "Some one must take care of me and you need have no fear that I will harm anyone else."

Adams was taken at once to the County Jail and was removed to the Receiving Hospital, where his wounds were dressed. Later he was taken back to the jail, where he finally fell off into a drunken slumber. The fight had sobered him somewhat but his talk was of a rambling order and it is said by the physicians that he is on the verge of delirium tremens.

This morning Adams was more reticent about talking, but he declared, as he had last night, that he had nothing against Jessup, except that the latter had interfered in his domestic affairs.

ADAMS' STATEMENT.

When told by Deputy Sheriff Taylor this morning that Dr. Jessup was a trifle better Adams was moved.

"Thank God for that," he said in a trembling voice.

"This trouble is another of the results of strong drink," he continued. "I was drunk last night and I shot my best friend. I had nothing against Jessup, but he beat me up terribly after I had shot him. My daughter Agnes is 21 years old and my son, Carl G. Adams, is seven years younger."

"Dr. Jessup liked Agnes, but he was

Hartsell, who was injured, was arrested on the charge of manslaughter.

FOUND DEAD
ON THE STEPS.

Young Man Murdered and His Body Thrown in Front of Sweetheart's Door.

SHANOKIN, Pa., June 18.—Daniel Richards, aged 25, of Greentree, was found dead on the porch of the home of his intended bride at Mount Carmel today with a bullet hole in his right temple. He was to have been married today to Miss Elizabeth Walters, daughter of Harry Walters.

The young man called at the Walters house last night, and shortly after 10 o'clock started for his home, a distance of three miles.

No shot was heard during the night and the weapon has not been found.

The police believe that Richards was murdered and his body carried to the Walters home.

Miss Walters said there had been no quarrel between them, and that Richards appeared to be in unusually good spirits.

WILL LYNCH HIM
IF CAPTURED.

CHILLICOTHE, O., June 18.—A posse of farmers have surrounded a strip of woodland near here and the Sheriff has been sent for to assist in the capture of a desperado burglar who operated here last night on a wholesale scale. Beginning with a hold-up on the street, the desperado entered three residences, the last being James Carroll's, where he tried to assault one of Mr. Carroll's daughters. From there the burglar went to Kinnikinnick, six miles north, where he entered the house of John Moss and attempted to assault Mrs. Moss, who was alone. She fought him off and aroused the neighbors. The robber fled and pursuit was given by a posse, who tracked him to a piece of woods, where they now have him surrounded. The farmers are armed with guns of all descriptions and are waiting for Sheriff Devine to arrive from this city. There is great excitement, and it is probable a lynching will follow if he is captured.

INSURRECTION.

Friction Springs Up in the Manila Departments Over Examinations.

FILIPINOS GOING
TO SURRENDER.

MANILA, June 18.—Captain Andrew Rowan, of the Nineteenth Infantry is under investigation for the destruction of a town and thereby causing an active renewal of the insurrection in the Island of Bohol. A native who had assassinated a corporal was caught and killed. Captain Rowan then burned an adjacent town and the people, inflamed with rage, rejoined the insurgent general, Samson.

ARBITRARY POWER.

One hundred and fifty former United States soldiers, a majority of them being employees of the civil department, have protested to General MacArthur against the alleged arbitrary exercise of discretionary authority on the part of the Civil Service Board. The law gives the board discretion to make a rule requiring the examinations of old employees and the board has not announced whether it will or will not require these examinations. All the petitioners agree to resign rather than submit to examinations and will accept private employment unless the matter is settled quickly.

WILL FORCE THE RULE.

The members of the civil board say they have taken no action on the question involved, but have notified Lieutenant Colonel Crowder, the military governor's secretary, to send his clerks for examination. Colonel Crowder, in reply, asked for the certification of the rule under which the examination was required. Colonel Crowder says it would be inconvenient to spare the men and that the requirement is unduly stringent at the present juncture.

COMMISSIONER'S ATTITUDE.

The correspondent of the Associated Press asked Judge Taft what the attitude of the United States Commission would be. He replied that, officially, he was not aware that a remonstrance had been made. The Board was authorized to determine the question; but, on general principles, if the men threaten to resign rather than stand a reasonable examination, which was not competitive, he was in favor of letting them resign.

FILIPINOS TO SURRENDER.

Cadillo's insurgent troops are beginning to rendezvous at Pagsanjan, Laguna province, whence they will proceed to Santa Cruz on Laguna de Bay to surrender. The Americans are evacuating Pagsanjan and Cadillo's request, in the meanwhile the saloons in Laguna are closed.

RUSSIA GETS
BACK AT US.

Gives Notice to Uncle Sam That it Has Raised Tariff Rates.

This action is entirely apart from that taken in connection with Russian sugar and is a new development in the discriminatory duties imposed by this Government and the retaliatory duties imposed by Russia. The order of the Russian Minister is to take effect on next Friday, or two weeks from the date of its issuance.

ASK FOR GRANITE FOR
THE NEW POSTOFFICE.

Prominent Business Men of Oakland Request Senator Perkins and Congressman Metcalf to Use Their Best Endeavors to Have California Stone Used in New Government Building.

The following petition explains itself:

"To Hon. George C. Perkins, United States Senator, and Hon. Victor H. Metcalf, member of Congress from the Third District: Gentlemen—The undersigned citizens of Oakland request that you present to the officials of the Treasury Department a petition on our behalf for a change from sandstone to granite in the specifications for the postoffice building to be erected in this city. This public building is to be a permanent structure of an ornamental and distinguishing character, and therefore should be constructed of enduring materials that will most readily lend themselves to imposing architectural forms. Granite is far more durable than sandstone, and is much more suitable for a structure of the class and design of the new postoffice.

"Its use will not greatly enhance the expense and the additional cost will be more than offset by the added permanency and beauty of the structure. Granite of a superior quality and tint can be supplied by quarries in this State at moderate cost.

"As this is to be a California building, we suggest that it would be more appropriate to construct it of superior California granite than to build it with inferior material from abroad.

"However, our object is to have granite in preference to any other material used in the construction, because when completed the postoffice will be an ornament to the city and a notable feature of its architecture.

"We respectfully suggest that you request the Treasury officials to notify the contractor not to let contracts for supplying the stone till this matter can be considered and the citizens of Oakland have had an opportunity to be heard. Both you gentlemen reside in Oakland and are familiar with the wishes of our citizens, and we earnestly pray that you will use your best efforts to induce the Treasury Department to order the desired change, as being in accordance with sound business policy and in consonance with the general desire of the people the new building is intended to serve."

TEN MILLION
WAS THE STAKE.

BUTTE, Mont., June 18.—Judge Harley, in the District Court, this morning awarded the Minnie Healy mine, valued at \$10,000,000, to F. August Heinze, deciding against Miles Finlen and the copper trust. Heinze bought the property from Finlen, who after spending \$54,000 in working the property, became discouraged and offered to Heinze for the amount expended. Heinze struck a rich copper vein within a short time and Finlen tried to get the property back and was assisted in his fight by the trust. Judge Harley's decision is the most sweeping victory Heinze has ever scored in Montana.

DEL MONTE
FLYER WRECKED
AT SAN JOSE.

Engineer Threw on the Air and Then Jumped For His Life.

PASSENGERS WERE
NOT INJURED.

SAN JOSE, June 18.—The Del Monte flyer on the Southern Pacific road, which leaves this city at 9:15 for San Francisco, was wrecked near the city limits this morning five minutes after it had pulled out of the depot.

RAN INTO LIGHT ENGINE.

The wreck was caused by a collision with a light engine which had just been run out of the round-house by the hostler in charge.

HE JUMPED FOR SAFETY.

Engineer Stewart, in charge of the fast train, when he saw a collision was inevitable, threw on the air and reversed his engine and then jumped for safety. He was hurled quite a distance and received a fracture of his right hip. The sudden application of the air slowed the train up sufficiently to break the force of the collision, but both engines were smashed and the passengers shook up considerably.

NO PASSENGERS INJURED.

None of the passengers was injured seriously. The light engine was literally torn to pieces by the impact of the collision. The tracks were cleared by noon and the big train proceeded on its way to San Francisco.

WILL USE OIL ON FERRYBOATS

Southern Pacific Company Will Start a New Deal—Railroad News.

Coal will soon be a thing of the past on the Southern Pacific ferry steamers, and fuel will soon be stored in tanks instead of bunkers. Arrangements are being made to substitute crude petroleum burners for the coal grates under the boilers of the steamer Oakland.

In pursuance of the application of Captain William T. McKenzie, master mechanic of the Southern Pacific Company, permission to use oil as fuel on the steamer Oakland was granted yesterday by Federal Inspectors of Steam Vessels Bolles and Bulger. Applications for the same privilege on the other ferry boats will probably be filed without delay.

This change is in line with the general adoption of oil as a fuel on the Company's locomotives. Careful experiments have demonstrated the efficiency and cheapness of this fuel and, as fast as oil burners can be installed on both locomotives and steamers, coal will give way to petroleum.

BOATS HAVE HARD TIME.

For forty minutes last night a boatload of passengers fretted and fumed on the decks of the Berkeley while the ferry-boat was unsuccessfully endeavoring to make a landing on this side of the bay. Twice the Captain of the Berkeley tried to guide her into the slip, but both times the strong flood tide carried her out of the true course and quick reversing of the engines was all that saved the boat from crashing into the slip.

While the Berkeley was cruising back and forth along the front, unable to overcome the force of the tide, the Bay City also arrived, but was unable to land on account of the Berkeley's antics. Finally at half-past 10, the strength of the incoming tide lessened somewhat and two boat-loads of exasperated passengers were safely landed.

KRUTTSCHNITT RETURNS.

General Manager Kruttschnitt of the Southern Pacific Company has returned from the conference of Southern Pacific officials held at Ogden a few days ago. In discussing the matter yesterday he said that President Marvin Huggitt, General Manager W. A. Gardner and Vice-President H. R. McCullough of the Chicago and Northwestern, President H. C. Egan of the Union Pacific were present, besides President Charles M. Hays and himself.

We discussed a number of matters affecting the through passenger service between here and Chicago," he said, "but they were all largely in the nature of suggestion on matters of small interest to the public. We decided upon no radical changes. There will be no modification in the running time of through trains until the changes in the grades on the Central Pacific and the Ogden-Lucien cut-off, which have been planned, have been accomplished. While the Union Pacific and Northwestern are doing better than we are in the matter of time, they realize that under present conditions we cannot shorten our time until we reduce our grades and straighten out our line. If these changes are carried out as planned we will be able to make some material reductions in our running time to Oregon."

STUBBS IS PROMOTED.

A dispatch from Chicago says: "All the roads in the Middle West and Northwest in which E. H. Harriman, J. P. Morgan, the Vanderbilts and J. H. Hill are interested hereafter will be practically under one management. J. C. Stubbs, now third vice-president of the Southern Pacific, will be the traffic expert or manager for the Harriman group of roads, while Darius Miller, second vice-president of the Great Northern, will occupy a similar position for the Hill roads. Both will have offices in Chicago."

CADETS WILL GIVE A MINSTREL SHOW.

A minstrel and vaudeville entertainment will be given July 2nd by Company N of the League of the Cross Cadets, assisted by the Army and Navy Parlor of the N. S. G. W. The entertainment will be given at St. Francis de Sales Hall on Grove and Twenty-first streets.

The purpose of the entertainment is to raise a fund to purchase new uniforms. Of late the membership of the company has been increased and new uniforms are required. It is desired to have all of the cadets march in new uniforms in the Fourth of July parade. The San Francisco regiment and band will also take part in the parade. The committee in charge of the entertainment consists of Captain J. A. Kennedy, Lieutenant J. McBrayn, Lieutenant W. Carey and Sergeant Leonard. Local and San Francisco talent will take part in the entertainment.

MINISTER SHOTS BEST FRIEND.

(Continued From Page 1.)

An old friend of the family and I did not object to that. It was only when he tried to interfere with me when I was drunk that the trouble occurred.

"Of course, I am repentant today, but I can't do anything to undo what has been done. I am an old newspaper man and know that I ought not to talk until I have seen an attorney. I expect my brother here soon, and then we will arrange about an attorney. My brother is W. J. Adams, a mining engineer of San Francisco."

A SORRY SIGHT.

Adams presented a sorry sight. He has several deep scalp wounds and abrasions and lacerations of the face. His left eye is almost closed and one of his ears is swollen to a pulp. It was necessary to give him frequent portions of whiskey during the day, and he complained often of his heart troubling him.

ANOTHER STATEMENT.

The statement made by Adams after his arrest last night was as follows: "Dr. Jessup is one of my best friends. I wouldn't have shot him if he had kept out of my room. When he came into the house and I heard him coming up the stairs, I called to him to keep out. He said he was drunk and I told him to come, however, and I carried out my threat and shot him. I should have done the same to any one who entered my room at that time. Jessup has been altogether too intimate with my daughter, although I should not have shot him on this account. He is a married man, but is not living with his wife. Jessup is about 45 years old, and I did not like the idea of his paying such marked attentions to my girl. After I shot my man, he grappled with me and succeeded in gaining the possession of my revolver before I could shoot again. He then beat me with the pistol. I do not blame him for this action, and hope that he is not seriously hurt. I was insane when I shot him."

JESSUP DIVORCED.

Dr. Jessup is a middle-aged man, having been born in Wisconsin about 35 years ago. He was married, but he and his wife separated about six years ago. Where the wife is now is not known, even by Jessup, although it is supposed that she is somewhere in California.

Dr. Jessup came to California when a child and lived for years in Padden. About five years ago he came to Berkeley, where he has since lived and has practiced his profession of dentistry. He is quite popular in Berkeley, being treasurer of the Lodge of Red Men and of the Marine Hotel Company. He is also a member of Lookout Mountain Post, Grand Army of the Republic.

REV. ADAMS ARRESTED.

Rev. Charles G. Adams was born about fifty years ago in Delaware county, N. Y. He was ordained as a deacon in the Episcopal Church in 1872 at Canby, Knox county, O., and as a priest in 1875 at Catskill, Greene county, O. He held the pastorate of St. Mark's Chapel in New York city, also of the Church of the Incarnation in the same city. He also filled pulpits in Fremont, Cal., and in Oakland, from which church he was dismissed on account of habitual intemperance. He is a widower and has two children, a son, Carl G. Adams, aged 14 years, and a daughter, Agnes, aged 21. His brother, W. J. Adams, is a mining engineer, with offices at 414 California street, San Francisco. Before entering the ministry Adams was a newspaper man, working under Charles A. Dana and Horace Greely. Since leaving the ministry Adams has been employed in no regular business, but has been dabbling in all stock and claims the title of oil engineer.

JESSUP'S STATEMENT.

After the shooting Jessup was told that he could not live, and he made the following ante-mortem statement: "This evening soon after dinner Miss Agnes Adams came to Thomas S. Allen's house, at the corner of Hearst and Shattuck avenues, and requested me to come to her home to protect her from her father's abuse. I entered the house with her and walked into a bedroom, where I was met by her father, Charles G. Adams. I did not show any force or threaten Adams in any way. I simply told him that he must not abuse his daughter, whereupon he shot me. I then jumped on him and smashed his face and beat the devil out of him."

BEAT HIS CHILDREN.

Last evening's affair was the culmination of a series of debauches which have lasted almost since the time of Adams' dismissal from the West Oakland Church. The neighbors in Berkeley say that ever since Adams moved to Berkeley two years ago he has gone upon frequent sprees and that during such times he has ill-treated both his children. It is claimed that Jessup, who was one of Adams' closest friends, was the only one who seemed to have any influence with him, and that he was called upon at such times by Miss Adams.

ADAMS A DRUNKARD.

It is stated that Adams since he left the ministry has twice been taken from homes for inebriates by a wealthy sister who lives in the East and that the last debauch was the result of the receipt by Adams of \$300, which was sent by the sister. This money is now almost gone.

W. J. Adams, brother of the ex-minister, called at the home of A. Stubbs, where Miss Adams has been staying since the shooting, this morning and then went to visit Dr. Jessup. Afterwards W. J. Adams was asked by Mrs. Allen if he would visit his brother and he replied that he thought not, as he had no desire to see even a brother who would shoot his best friend.

DR. JESSUP BETTER.

This afternoon Dr. Hoagland stated that Dr. Jessup was some better and that, if complications did not set in, he might recover.

Since the shooting, Dr. Jessup has turned over all his property to T. S. Allen, with whom he lived.

A detective from San Francisco called at the Allen home today to see if Jessup did not desire his wife and child, but Dr. Hoagland would not allow him to see the patient. The detective stated that the wife and child were living in Marin county.

DR. ROWELL TALKS.

BERKELEY, June 18.—Dr. Herbert N. Rowell, who has been the Adams' family physician, today made the following statement: "This shooting is the result of a protracted jag, in which the father has kept the son and daughter in peril. After the mother of the girl died, the girl became the guardian of her brother, so that she had practically been his mother for the last eleven years. She has an income of her own from the estate of her mother and from this she has been supporting the entire family. The mother dispossessed Adams of all interest in her estate."

"Friday Jessup came to me and told me that Adams' treatment was making his daughter sick. I told him to send her to me, and when she came I found that her vocal cords were paralyzed because of fright brought on by hysteria."

"I sent her to a specialist and he told her that she would need absolute quiet to regain her health. Jessup and I spoke to the marshal with the intention of having Adams looked after. Sunday afternoon Jessup telephoned me that there was trouble again at the Adams house. I advised him to have Adams arrested for disturbing the peace. Monday I found no action had been taken and yesterday I went to dinner in Oakland and telephoned to District Attorney Allen, but could not find him."

"Yesterday evening Adams telephoned to the Stuberbach house and asked if Agnes was there. Mrs. Stuberbach replied that she was not, and he said that if she would go to his house he would tell her his family troubles. The girl, becoming alarmed, telephoned to me and they went together to the Adams home. As they entered the house Adams fired. Adams had previously told his daughter that if he ever saw her coming into the house with either Jessup or myself he would shoot."

N. A. McConahy of San Francisco has been retained to defend Rev. Adams.

ACME CLUB EFFECTS AN ORGANIZATION.

A permanent organization of the revived Acme Club was effected last night at a meeting held in Justice Sutor's court room. W. H. L. Hynes was elected president and J. H. Hynes secretary of the new club. By-laws and a constitution will be adopted at a meeting next Monday night.

About sixty members were enrolled in the club. It was decided to limit the membership to 100. The club members will meet every Tuesday night, and a formal opening of the club will be held Saturday evening.

President Hynes is in receipt of the following letter from President Smith of the Bay City Wheelmen:

"W. H. L. Hynes, President Acme Club—Dear Sir: We note with pleasure that an effort is being made to reorganize the very friendly relations that always existed between the Acme and the Bay City, harken to extend to you and your associates our best wishes for the success of the movement. Yours very truly, "THE BAY CITY WHEELMEN. "Frank W. Smith, President."

ALL DANGER PASSED FOR THE PRESENT.

WASHINGTON, June 18.—Doctors Johnston and Rixey held a consultation at the White House this forenoon, at the conclusion of which Dr. Johnston pronounced Mrs. McKinley as convalescing. He said there may, of course, be a recurrence of her trouble, but for the present the danger is past. Dr. Johnston said that the blood infection had disappeared entirely.

Dr. Rixey, although evidently encouraged by the improvement in Mrs. McKinley's condition, was somewhat more conservative in statement than Dr. Johnston. He thought it scarcely safe to say that she was entirely out of danger, as her extreme weakness might precipitate relapse; but her condition was quite satisfactory, her improvement being steady. It is expected that President and Mrs. McKinley will be able to leave for Canton by July 1st.

FIRE IN BUFFALO DESTROYS MANY HOMES.

BUFFALO, N. Y., June 18.—Fire early today swept out of existence all the buildings on Squaw Island, fronting on the Niagara river, from the foot of Perry street to a point three-quarters of a mile north. The loss is in the neighborhood of \$200,000. The principal buildings destroyed were the Frontier mill, \$50,000; the Ryan elevator, \$75,000; the Queen City mills, \$100,000; Port Erie Ferry Company's dock office and building room, and a part of the dock, \$50,000; a dozen bath and steam launches, canal boats and house boats anchored in the harbor, valued at about \$15,000; the dock itself, worth \$25,000, and scores of shanties and boat houses, occupied by squatters, scattered along the shore of the river for nearly a mile, added fuel to the flames.

POLICE COURT.

Proceedings Tuesday, June 18.—Mrs. G. Davis, John Spours, Mrs. Everett drunk, \$2 or 1 day; Albert Kludson, violating ordinance, forfeited \$2 bail; Edward Barry, violating bicycle ordinance, \$2 or 1 day; August Schneider, begging, 30 days in County Jail; Joseph Newgard, grand larceny, continued to June 19 for examination; Sam Gray, gambling, continued to August 8, jury; Mrs. Mary C. Ball, Clarence Bassett, adultery, on trial.

HE WAS STABBED BY HIS WIFE.

A. M. Forbes, an iron moulder residing at 1006 Fifth street, quarreled with his wife about 1 o'clock this morning, and as a result sustained a severe wound on his wrist. His wife stabbed him with a case knife. About 2 o'clock in the morning Forbes came to the Receiving Hospital to have the wound dressed. He required eight stitches to close the wound.

According to Forbes' statement, he was to have gone to Keswick this morning, where a position is awaiting him. He has been out of work for some time, having walked out with the strikers at the Union Iron Works during the evening. Forbes has a number of drinks. When he returned home he and his wife quarreled over the money that was to have paid for his trip to Keswick. The row ended by Forbes stabbing her husband in the wrist. Forbes has postponed his trip to Keswick pending the healing of the wound.

This is not the first time my wife and I have had an affair of this kind," he said. "She has an awful temper and I get the benefit of it."

SENSATIONAL CASE IN POLICE COURT.

The case of Mrs. Mary Bull and Clarence Bassett, charged by the husband of the woman with a statutory offense, involving Dr. Hedy's wife, was further tried in the Police Court this morning. The testimony of Mrs. Bull's two minor sons was of the most sensational order and divulged a most startling condition of affairs in the Bull household. At noon an adjournment was taken till 1:30 this afternoon.

PRINCE PONIATOWSKI IS THE PRESIDENT.

SAN JOSE, June 18.—The fifth annual convention of the Pacific Coast Electric Transmission Association, of which Prince Andrew Poniatowski is president, convened at San Jose today for its annual session. About forty delegates are present. The convention will be in session three days.

GREAT RACING MEETING IN ENGLAND TODAY.

ASCOT HEATH, England, June 18.—The aristocratic race meeting on the Royal Heath opened today with cold, gloomy weather, but though short of its chief attraction—the royal procession and the attendance of the members of the royal family—the migration of fashionable London into Berkshire promises to make the meeting the usual great social success.

All the great horses of the year are engaged in one or more events, and upwards of 150 have already arrived here to contest for the rich stakes, aggregating in the neighborhood of £40,000.

The racing opened promisingly for the Americans, W. C. Whitney's Watershed (J. Reiff) winning the trial stakes of 10 sovereigns each, with £500 added, for 3-year-olds.

Veronese, won by Prince of Wales stakes of £2 each, with £1,000 added, for 3-year-olds. The second and third stakes of £10 each, with £1,000 added, were won by Port Blair (Henry) and W. C. Whitney's Mount Vernon (J. Reiff) was third.

Foxhall Keene's Sinopi (Maher) won the Ascot stakes, a handicap of £20 each, with £500 added, the second to £10 and the third £200 of the Distance, about two miles. Drissac was second and Scintillant was third. Sixteen horses run.

THEY DID NOT STAND BY THE WILL.

Judge Ellsworth this morning handed down a decree ordering a distribution of the estate of the late James A. Johnston. The property is to be distributed according to a compromise agreed upon by the widow, Mrs. Margaret Johnston, and the other heirs.

The executor's account shows \$58,365.84 received and \$16,401.18 expended, leaving a balance of \$41,964.66 to be distributed. The will provided that the widow was to have the income from the estate during her lifetime, after which the property was to go one-third to William Johnston, a brother, and the remainder to his sisters.

According to the compromise, the widow is to receive one-half of the property, amounting to \$20,982.33. William Johnston is to receive one-third of the property, amounting to \$13,976.55, and the remainder to his sisters, Margaret and Louise Catherine Lucas, to receive \$500 each. Margaret Books, Ellen Aiken and Christine McEneaney, sisters are to receive each one-fourth of the residue, amounting to \$1,995.53 each. The other fourth of the residue is to be divided equally among Guy L. Johnston, nephew and niece, Maggie Van Eman, nephews and nieces.

When the died Johnston had on deposit in bank the sum of \$5,268.80. George L. De Golla represented the estate in court.

REVISION COMMITTEE MEETS IN PITTSBURG.

PITTSBURG, Pa., June 18.—The Creed Revision Committee appointed by the last General Assembly of the Presbyterian Church at Philadelphia met here today behind closed doors with a small attendance of members. It is expected that the committee will be in session all week.

The meeting was opened with prayer, after which the action of the last assembly constituting the committee was read by the Rev. Dr. William Henry Roberts of Philadelphia, secretary of the committee. All action of the Assembly as to revision was read and discussed, with some difference of opinion as to its meaning.

The committee decided to get down to business at once and make effort to do something at the first meeting. Three or four other meetings will be held during the year, probably in New York, Chicago and Washington.

GRAND JURY INDICTS FATHER AND BROTHERS.

KANSAS CITY, June 18.—The Grand Jury today indicted C. W. Prince, Will Prince and Bert Prince, father and brothers of Lulu Prince-Kennedy, as accessories to the murder of Philip H. Kennedy, for which Mrs. Kennedy was found guilty last Saturday and given a ten years' penitentiary sentence. The Prince indictment was returned on information filed by Prosecutor Hadley. The father and Bert Prince were later released on bail, but Will Prince has remained in jail, unable to furnish bond. The two Princes now out will be re-arrested and be compelled to give new bonds.

DISAPPOINTED STUDENT TIES UP SALARIES.

SAN JOSE, June 18.—Henry Miller, who was a student in the State Normal School here and who under a ruling of the State Board of Trustees was refused a certificate of graduation because of "inaptitude for teaching," has taken a new tack to compel the faculty of the San Jose school to come to terms. He has secured an execution attachment for costs in suit at law he brought and the sheriff has levied on bank accounts of every member of the faculty of the school, tying up all their money except the small change usually carried in their purses. Summer vacations and new frocks are beyond reach of the teachers until the attachments are released.

WARRANTS ISSUED FOR BRANDES' WITNESSES.

The Brandes murder trial did not go on this morning, owing to the non-appearance of a number of witnesses subpoenaed by the defense. Judge Ogden continued the case until 10 o'clock this afternoon and issued bench warrants for the following witnesses: L. L. Rogel of Santa Cruz, Charles Capp of San Francisco, Harry Brunell of 337 Market street, San Francisco, and Fred Barker of 130 Pannash street. These witnesses, among other things, are to testify that Brandes was kind to his daughter.

YOUNG ROMANIAN SENT TO ASYLUM.

Isaac Herscovici, a native of Roumania, aged 23 years, was committed to the Stockton Insane Asylum today. He refused to leave his room.

CABINET HOLDS A MEETING.

WASHINGTON, June 18.—The Cabinet meeting today was without important feature. There was desultory discussion of the Chinese settlement, the situation in the Philippines, Cuba and Porto Rico, but nothing of moment developed and no action was decided upon. The President is prepared to issue his proclamation declaring the independence of the United States and Porto Rico insular Legislature at the extraordinary session called for July 4 presents facts to him to sustain the claim that the revenues under the Hollander tax law make the island self-sustaining.

The Cabinet believes that the Chinese settlement is closed at hand. In talking of this settlement, Secretary Hay suggested that the amounts voluntarily paid the American missionaries by Chinese provinces should be deducted from our aggregate claim of \$35,000,000. Secretary Hitchcock reported that a decision of the courts in the suits to enjoin him from opening the Kiowa, Comanche and Apache reservations in Oklahoma probably would be rendered in a few days. OAKLAND HARBOR NEWS NOTES.

The Southern Pacific Company
Makes a Deal With
Boole & Son.

The Southern Pacific Company has made arrangements with W. A. Boole & Son, whereby the Company may use the ways at the latter's shipyards. When the railroad people, therefore, have a vessel to repair it is sent to the ways and the railroad workmen are placed to work upon her.

Yesterday the tug Rival, which belongs to the Railroad, was placed upon the ways and she will be thoroughly repaired and repainted.

The schooner Rival is also on the ways at Boole & Son's shipyard. Her bottom will be repaired and she will be overhauled and re-painted. The launching of the Wawona at Boole & Son's shipyard has been postponed, it having been found impossible to complete her owing to the strike of the iron workers. She was to have been launched the latter part of this week.

NEWS FROM ALASKA.

City Wharfinger Leballister has received a letter which will be of considerable interest to those who are outfitting in Oakland preparatory to going to the Alaskan gold fields. The letter was written by J. A. Boynton at Cape Nome on March 10th. He states that a profitable summer was expected and that, at that time, the weather was clearing so rapidly that he expected to have fine working weather by April 1st. In regard to the food and fuel supply, Boynton says that there is enough coal to last for four years.

The dealers, he says, tried to run the price up to \$100 a ton for coal, but they failed and it is now being sold for \$35. The price of other commodities is quoted as follows: Hay, \$150 a ton; flour, \$5 a hundred; potatoes, \$5 a hundred; sugar, 1-2 cents a pound; kerosene, \$5 a case; fresh meat, from 25 to 30 cents a pound; canned goods, 25 cents a can.

Mr. Boynton is well known in Oakland. He states that he erected a 4-room house during the winter and that he is now comfortably situated. The people in Alaska, he says, did not hear of the re-election of President McKinley until late February.

MORE VESSELS DOCKED.

The steamer Arcata docked at the City Wharf yesterday and is discharging a cargo of 300 tons of coal assigned to the Oregon Coal & Navigation Company. The coal was brought from Coos Bay.

The schooner City of Dawson docked at the city wharf and took on a lot of agricultural implements which were manufactured by Bran & Company of this city. The implements will be taken to Sacramento where they will be transferred to a river steamer to be distributed at various points in the Sacramento Valley.

Work at Hay & Wright's shipyards is being centered on the 4-masted companion schooner to the Cona, which was recently launched.

At Dickey's shipyard work is being rushed on the steamer Oakwood. It is not expected that the new steamer for the Pacific Coast Steamship Company will be completed for several months.

HYDRANTS FOR ANNEXED DISTRICT.

Professor Wallace Gets Another
Dressing Down for Demagogic Opposition.

HIS HYPOCRISY
COMPLETELY EXPOSED.

At last the annexed district is to have its long delayed protection from fire. Last night the Council adopted a resolution directing the Contra Costa Water Company to put in the necessary hydrants at the points heretofore designated by the City Engineer.

Action had previously been taken to locate two fire engines in the district but the engines would be practically useless unless there were sufficient hydrants at convenient points to supply them with water.

Wallace made a characteristic speech in opposition to the resolution, which was merely his customary spiel against the Water Company. He said the hydrants were not to be erected because they were needed, but merely to increase the revenue of the water company.

When he was shown that no hydrants had ever been provided for the annexed district and that the resolution simply authorized their erection at points selected by the City Engineer by direction of the last Council, he based his objection on the wording of the preamble. When he was shown that there was no preamble he subsided and voted for the resolution, but not before he had received a severe raking down from Schaffer, Wixson and Courtney.

Fitzgerald, who has been ghost-dancing with the Seventh Warders and has gone off in the Badlands under the stimulus of this fine frenzy, showed a disposition to follow Wallace's lead in opposing the resolution, but got his cue rather quicker than the schoolmaster and avoided making a spectacle of himself.

When Wallace made his crack about the hydrants not being needed and only authorized to give the Water Company revenue, Schaffer said with a gravity almost amounting to sternness: "Nearly all these new hydrants are to be located in the annexed district, which is absolutely without fire protection now. They are to be erected in places selected by the City Engineer and approved by the Chief of the Fire Department. Every new hydrant is to be placed at some point where it is necessary. The annexed district has been a part of the city for several years, but has been left entirely without fire protection. This resolution simply affords the protection that has been promised and which little people there pay in taxes."

"Perhaps my friend to the right does not know that these hydrants were authorized by the last Council and are to be located in places selected by the City Engineer and approved by the last Council," said Wixson, sarcastically. "There are no hydrants in the annexed district, which embraces a large territory that is rapidly growing. Without them we can have no protection from fire. Two fire engines have been located out there, but what use will they be if they have no place to get water. Perhaps my friend to the right might say they might draw water in a hose from the bay."

"If in the annexed district," said Bon, "which is as large as the rest of Oakland from Lake Merritt to the bay. When we became a part of Oakland four years ago there was \$3,500,000 of taxable property in that district, but Professor Wallace's friends have wiped it off the assessment roll. Nevertheless we still pay taxes, and we are entitled to the same proportion of hydrants as the Seventh Ward."

"It is my hope that the fire hydrants in the annexed district will be located in places where they will be of use. It is not fair, it is not decent. This matter does not concern the Water Company save that the company is directed to put in the hydrants. The last Council, the City Engineer, the Chief of the Fire Department, the city hydrants are absolutely necessary. At present an immense district is wholly without fire protection, and when we propose to give it the member from the Seventh Ward says it is to give the revenue to the Water Company. Again I say it is not decent."

Wallace said "aye" very faintly when his name was called.

**LOCATION OF HYDRANTS
IN ANNEXED DISTRICT.**

At the meeting of the City Council last night Councilman Bishop's resolution for increasing the fire hydrants throughout the annexed territory was after considerable debate, finally adopted, and the Contra Costa Water Company was directed to place hydrants at the following points for fire protection: Eleventh and Villa street; Eleventh street and Stanford avenue; Eleventh street and Folsom street; Eleventh street and Doyle avenue; San Pablo avenue and Blackstone street; San Pablo and Alcatraz avenue; Mattie and Lulu avenues; Park and Folsom streets; Park street and Euclid street; Park street and Herzog street and Klinkner avenue; Herzog street and Alcatraz avenue; Idaho and Felton streets; Los Angeles and North streets; Los Angeles street and Graces avenue; Baker and Crawford streets; Lowell and Golden Gate avenue; Lowell street and Arlington avenue; Lowell and Sutter streets; Lowell street and Central avenue; Occidental and McKee streets; Adeline and Benton streets; Adeline and Stanley streets; Thirty-sixth street between Market and Linden streets; Fortieth and Leusk

streets; Grove and Mariposa streets; Dover and Stanley streets; Grove and Forty-fifth streets; Grove and Forty-third streets; Grove and Thirty-eighth streets; Grove and Thirty-sixth streets; West and Thirty-seventh streets; Telegraph and Weston avenues; Telegraph avenue and Morgan street; Telegraph avenue and Hancock street; Telegraph avenue and Joy street; Telegraph avenue and Maple street; Shattuck avenue and Benton street; Shattuck and Merced avenues; College and Vernon avenues; College avenue and Hudson street; Claremont avenue and Miranda street; First avenue and Clifton street; First avenue between Avon and Maple streets; Second avenue and Sumner street; Second avenue and Birch street; Temescal and Cherry streets; Broadway and Booth streets; Weston avenue and Ruby street; Weston avenue and Oak street; West and Linden streets; Gold street and Moss avenue; Howe street between Moss avenue and Amethyst street; Forty-third and West streets; Shattuck avenue and Cornwall street.

A resolution ordering the Contra Costa Water Company to place fire hydrants at twenty-one places within the city was referred to the Fire and Water Committee.

Also that all locks be removed from fire hydrants, that they may be used by the City Fire Department, and that it replace the present antiquated hydrants at the corner of West and Second streets and Castro and Ninth streets with new hydrants of modern make.

TUESDAY.....JUNE 18, 1901.
OUR REPUTATION AT STAKE.

The fruit firms or companies which have been guilty of shipping infected fruit out of this State cannot be too severely condemned, and if there be any law to reach them they should be given exemplary punishment. Prunes, especially, are declared by inspectors in Montana and in Utah to be so badly covered with the San Jose scale as to be a menace to the orchards of those communities, and it is said that the dreaded pest has already made its appearance in the Box Elder country. In Utah, one of the richest fruit regions of that State, while a carload of apricots from Marysville placed on sale in the shops of the Mormon center was so badly infected that it had to be destroyed by the authorities.

It is only a few years ago that several orange shipments from this State were held up, examined and found so diseased that they were burned in one Eastern market, and our entire trade in that variety of fruit was ruined for many seasons. In attempting to get a few dollars for their damaged crop, in other words, an unscrupulous dealer or so cost the whole State millions. It looks as if the same thing had been done again and the great fruit associations have not kept their promises. They have been derelict in their duty to the individual members and for the sake of a cent piece or so have allowed the great body of orchardists to be placed in a position from which it will take years to extricate them.

There is only one thing to do, and that is for the fruit growers of California to get together and adopt such regulations as will prevent the further shipment of diseased fruit. It will also be necessary to repudiate the action of the shippers who have been guilty of the crime against the State already referred to and to see that the quarantine service against noxious importations be extended to prevent similar exportations. If there be horticulturists who insist on selling infected fruit it would actually be cheaper for honest growers to submit to the blackmail and buy up the threatened shipments than to let them go abroad, but we fancy that if the railways were talked to about it they would lend their aid and there would be an end to the whole nefarious business.

The importance of instant action cannot be too strongly impressed upon those directly interested, as are the fruit men. It is to them not a question of a few days, but of the income of the six or seven seasons during which they will be under the ban if they do not put a stop to the work of scoundrels who are now giving the State's entire output a bad name.

Dispatches from Sacramento state that footpads there held up a newspaper man who was on his way home and secured a small sum of money. Incredible! Who ever heard of a newspaper man heading for home with money in his pockets?

BOOK THIEVES.

There seems to be no way of preventing the State University library from an annual loss of about 200 books, the greater part of which are admittedly stolen. That this as a reflection of the ethical standing of the institution must be clear to the most obtuse understanding, but it unfortunately appears to be the case that the theft is regarded as a matter more of jest than for serious attention.

Not to be euphemistic, the police would call such acts those of sneak thieves and that would be the right way to describe them, but can the Berkeley institution allow itself to become known as a place where such practices are tolerated? Of course not. Then it is the duty of the officers having the books in charge to ferret out the offenders and administer such a punishment as will be likely to deter those so inclined from pursuing their present paths. It should not be a difficult task to persuade the students that the honor of their foster mother requires them to guard against the possibility of a stigma of this kind attaching to her name, and that their aid will do much towards stamping out the meanness—for it is nothing else.

Thieves who steal the books of the University, vandals who deface or tear the volumes in free libraries, and people of that kind, deserve no mercy when caught, and the more drastic their discipline, the less likelihood is there for a repetition of the crime. There ought, in the meantime, to be some one who is responsible for the library, and if, as reported, there are instructors who are so forgetful that they lose property that by no possible conception can be deemed theirs, then it is high time that a system be adopted that will prevent any work being removed from its place without its being charged against the person taking it, he to be responsible for its return in good condition. The great libraries do this, and the University can do likewise.

Oakland has rarely had a more momentous happening than will occur this week, when the visiting Congressmen investigate our harbor facilities and look over the city. Upon their verdict depends much of our future, for a favorable impression means that we will secure the governmental aid we have sought so long. As it doesn't seem possible that the result will be other than favorable we can indeed feel, when their launch arrives in the estuary, that "our ship is coming in."

Mayor Carter Harrison of Chicago has been officially declared a Democratic candidate for President in 1904. If he can secure at a reasonably low rate the advertising to be got by running, it is a good enough proposition for him; otherwise not, for the Republican tidal wave, instead of showing signs of ebbing, is stronger than ever and looks like holding its own for many a long year to come.

A trans-Alaskan railroad is contemplated. If enterprise of this description goes much farther, it won't be long before we have an all-rail line to the North Pole—summer excursions to the land of icebergs ought to draw lots of patronage from Chicago and Fresno during the dog-days.

A scientist says that the coming age will be one of glass. His theory may be based on the vast increase in the number of "glass houses" occupied by people nowadays.

HOSTLERS TRYING TO UNIONIZE STABLES.

Up to this afternoon the proprietors of the following livery stables have declined to sign the agreement submitted to them by the Hostlers' Union, establishing hours of labor, wages and recognizing the supremacy of the Hostlers' Union: Club Stables, Hunt proprietor; Dashiway, Williams; Kane & Daly; Janita, Peterson; Black Hawk, Reed; Piedmont, Smith; Medall, Carter; McKenzie; Nor; City Hall, Baker; Dewey, Schaffer.

A walk-out of the employees, however, has taken place only in Kane & Daly and Schaffer's stables.

The union demand will be submitted to other livery men tomorrow.

A number of the livery owners have already signed the document, the names of whom were printed in Saturday's TRIBUNE.

SLIGHT CLOUD ON THE TITLE IS REMOVED.

MILLS ON THE GREAT EXPOSITION.

California Has the Finest Exhibit the State Has Ever Yet Displayed.

ARTISTIC FEATURES OF THE BIG FAIR.

William H. Mills, who superintended the collection and installation of the Southern Pacific exhibit at the Pan-American Exposition, returned from Buffalo last Saturday, and has given the San Francisco Post some very interesting information regarding the California display and the features of the Exposition in general.

In his opinion, the attendance will not be large until after the harvest is completed. Mr. Mills said that there were two classes of people California was in search of—merchants, who dealt in the products of this State, and the class of people who might be induced to become immigrants. Neither of these classes has made its appearance in large numbers at Buffalo, but without doubt, said Mr. Mills, they will be present during the last three months of the Exposition.

Concerning the value of the Exposition, Mr. Mills is quite emphatic in his belief that the Pan-American Exposition at Buffalo affords an excellent opportunity for advertising this State, and he is entirely satisfied that the exhibit now installed will present the State in a most favorable light to the world. It has attracted very interested attention, and notwithstanding the fact that the agricultural classes are not yet in attendance, a great many people have manifested a high degree of interest in the State, and the exhibit itself has excited not only the attention but the admiration of all who have seen it. Californians in particular are very proud of the exhibit.

Mr. Mills is unqualified in his praise of the physical equipment of the Pan-American Exposition at Buffalo. He said that the buildings are all architecturally very fine; the structures have a dignified and noble appearance; the approaches are artistic and effective; the esplanades are beautiful and extensive, while the Court of Fountains, under its electrical illumination at night, is the finest that has yet been achieved.

"The electric tower," said Mr. Mills, "with its winged colonnades, when illuminated, is the grandest electrical display that has ever been attempted at any of the expositions. The people of Buffalo enjoy a special advantage in having a vast supply of electrical power furnished by the great electrical works and generated at Niagara Falls. Except the Eiffel tower from the electrical display, and that of that of Buffalo far surpasses the former."

The California exhibit, including that made by the Los Angeles Chamber of Commerce, occupies 25 per cent of the horticultural building. The State exhibit, which was made by the Southern Pacific Company in connection with the State Board of Trade, is a collective exhibit, embracing the entire range of California products and the only collection of exhibits installed in the entire Exposition. It is very artistically installed and is admitted by all to be the most beautiful exhibit in the whole Exposition except the great Government exhibit which cost \$500,000.

Mr. Mills says that just before leaving twenty-six journalistic representatives from the State were in Buffalo to attend the meeting of the National Editorial Association. They were delighted to find that the California exhibit far surpassed the combined exhibits made by all other States.

"The Chamber of Commerce of Los Angeles county, with its usual enterprise," said Mr. Mills, "has installed an exhibit for Los Angeles county which is a very complete and adequate exhibit of the resources of Southern California. The exhibit is under the very efficient direction of Mr. Frank Wiggin, and Southern California will add very much to its popularity throughout the country. Southern California is much more broadly advertised than any other portion of the State, and such advertising is a valuable asset to that section of the State. Southern California could not afford to take five or ten millions of dollars for the broad publicity it has achieved through the public spirited enterprise of the Chamber of Commerce."

Mr. Mills was also very enthusiastic in his praise of the exhibit made by Fresno county. "It is compact, extensive and presents the entire range of California products, including all the fibers grown in this country, all objects of horticulture and agriculture, the full range of the products of the State, and under the very efficient management of Mr. C. F. Weyer," said he.

"The California Cannery Association," continued Mr. Mills, "has also made a most artistic display, using 9,000 cans in the construction of a canned palace, which attracts the attention of thousands of visitors each day."

"The great register maintained in the Los Angeles exhibit showed over 40,000 names at the time of my departure from Buffalo. There are a great many Californians in Buffalo, and a great many more will visit the Exposition during the week. A note was taken of the registration of Californians for two weeks, and they numbered over 200."

SENATOR PERKINS GIVES HIS VIEWS

Makes Suggestions in Regard to Improvements on the Coast.

Senator Perkins says that he could not give a better idea of his views in relation to the needs of the State at large in the matter of the improvement of its rivers and harbors than can be found in the facts embraced in the report of the Government's engineers. The California delegation asked Congress to make all the appropriations that were recommended by Lieutenant Colonel Hecker.

"These recommendations have been carefully considered by the Government Board of United States Engineers," said the Senator. "The California delegation was successful in embodying the most of them in our bill for the improvement of rivers and harbors, which failed to become a law at the last session of Congress. I think there is no question that the present Congress will pass an equitable bill, and I will ask for an appropriation for the removal of the sinker rock in the harbor of San Francisco, the improvement of the Oakland harbor, Alviso and Petaluma channels, Napa river, dredging at Mare Island and Point Pinole, improvements in the San Joaquin and Sacramento and Feather rivers, the San Pedro and San Diego harbors, and also dredging in Humboldt bay."

"I trust that the committee who are now on the Pacific Coast, after seeing the varied and vast resources of California, her diversified interests and especially the commerce of our ports and the great natural waterways in the Sacramento and San Joaquin valleys, which will enable the farmers of that great empire to transport their grain and products to the market, will see the necessity of the Government's aid in keeping them open to commerce, and in increasing the commerce of our coast ports and our growing maritime interests. These objects, I think, will make a favorable impression upon the committee, and the California delegation in Congress will have their co-operation in securing needed appropriations from the Government for these improvements, which are of so much importance to our State."—S. F. Call.

HER INFANT CHILD WAS KILLED BY STOCKTON FLYER.

There was a tragedy near Sather station late yesterday afternoon, when a mother saw her 19-months-old son, Freddie Schrou, run over and cut in half by the Stockton flyer.

The child was playing on the tracks and the flyer, in charge of Engineer Jordan, that had left the Pier at about 4:30 o'clock, was speeding along at the rate of twenty-five miles an hour, and although there is about a mile of straight track, the engineer did not see the little one until it was too late.

Mrs. Schrou witnessed the tragic death of her child from a window. She rushed out of her house and fell fainting at the bottom of the stairs.

The train went about 100 yards and came to a standstill.

Several hours elapsed before the Coroner was notified. An inquest will be held.

Philip Schrou, father of the child is a pastry cook at the Sea Beach Hotel, Santa Cruz.

V. H. METCALF ON HARBOR NEEDS

Congressman Tells What Is Required in the Third District.

BY HON. V. H. METCALF.

In response to your request, I transmit to you a statement of the needs of the Third Congressional District of California in the matter of river and harbor improvements, to which the attention of the visiting committee of the House of Representatives having those matters in charge will be called. The limited time at my disposal for its preparation has prevented as full an elaboration of our needs as I could have desired.

By way of preface, let me say that the visit of this committee is a notable one for our State. In the history of the American Congress it is the first time that a great committee has traveled thousands of miles to personally inspect and inquire into the needs and possibilities of our State in the all important matter of our river and harbor improvements.

They are here by the special invitation of the Legislature of this State and the various commercial bodies of California, presented and urged for acceptance by the united California delegation in both houses of Congress, and without any appropriation by Congress to meet the expenses of the trip. Let them find a royal Californian welcome, and above all let them find prevailing everywhere a sentiment of unanimity for the best good of the State at large, while each community makes the best showing possible for its immediate local needs.

Aside from the large proportion of the committee which is visiting us—fifteen out of a total membership of seventeen—the personnel of the committee lends additional weight and importance to this visit of personal inspection and inquiry. The members of this committee are among the strongest and foremost men in the Congress of the United States. The chairman, Hon. Theodore D. Burton, is a man of great natural ability and thorough education, a trained and experienced legislator, and the best informed man in Congress in regard to the rivers and harbors of this country. In all matters pertaining to river and harbor improvements the House of Representatives will be governed in its action, beyond the possibility of doubt, by the reports of this committee, commanding, as it does, the confidence of the House, in its intelligence, thorough information and knowledge of the subjects referred to, and the high standing of the members for integrity and fairness, and with the courage of their convictions. Let every portion of our State, therefore, present its needs and claims fully, fairly, intelligently and intelligibly.

The Third Congressional District has many needs, embracing, as it does, the approaches to the San Joaquin and Sacramento rivers, the harbor of Vallejo, and the many straits, the Carquinez Straits, Port Costa, Pinole Point, Antioch, and last, but not least, the Oakland harbor.

The great commercial interests located at and about Carquinez Straits have grown to immense proportions, and represent an invested capital of many millions of dollars, and I have no doubt that upon a presentation of the facts and figures to the consideration of this committee the National Congress will through its recommendation, make liberal appropriation for keeping open the channel to this important point for vessels of the deepest draught.

As giving some idea of the volume of business at ports along Carquinez Straits, here is a brief summary of figures. The annual exports of grain (wheat and barley) therefrom amount, approximately, to from 750,000 to 800,000 tons; that of lumber to 150,000 tons; and of other goods to 200,000 tons. There are imported from 50,000 to 60,000 tons of raw sugar, requiring twenty to thirty vessels drawing from 18 to 20 feet of water.

There are from 75,000 to 80,000 tons of coal discharged annually at the Southern Pacific Railroad Company's coal bunkers at Port Costa for distribution throughout the State.

The Selby Smelting and Lead Company imports from 60,000 to 70,000 tons of coal and coke, besides which they receive large quantities of valuable ore from points along the coast.

From South Vallejo there are exported annually from 60,000 to 70,000 tons of flour and mill products, a considerable portion of which is exported in deep-water vessels direct from the mill.

In the foregoing statement, no account has been taken of the immense amount of coasting business and inland commerce that comes from the

THE WRONG MEDICINE.

Thousands of people yearly treat their ailments with the wrong medicine. They are in the habit of jumping at the first "cure-all" they see advertised and fancy they are going to be benefited.

People should use more caution in selecting their medicines. These are times when the country is flooded with the printed boasts of experimenters. Those who have piles in any form cannot be too careful in its treatment.

The delicate treatment which the curbing of piles and kindred troubles a life study.

It is now the best known life remedy before the public. Thousands have been cured who had experimented for years with every known remedy. Hundreds who have been treated surgically without results have been completely cured by Pyramid Pile Cure.

Don't experiment with dangerous drugs nor run the risk of a painful surgical operation. This remedy is a prompt, perfect and permanent cure for the most persistent case of piles. It is manufactured by the Pyramid Drug Co., Marshall, Mich., and has found its way into every wide-awake drug store on this continent. Ask for it and be cured of a disease which may lead to fatal complications.

To Mothers of Large Families

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

We make a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid. To women, young or old, rich or poor, we extend an invitation to accept free advice. Oh, women! do not let

your lives be sacrificed when a word of advice at the first approach of weakness may fill your future years with health and joy. Address a letter to Mrs. Pinkham's Laboratory, Lynn, Mass., and you will not be disappointed.

"When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to the Pinkham advice and medicine I am now well, and can do the work for eight in the family."

"I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—Mrs. Carrie Belleville, Ludington, Mich.

Two great rivers of the State and through the Straits of Carquinez.

Aside from the large commercial interests located on the Straits of Carquinez and at Vallejo is the naval station at Mare Island. From 1,000 to 1,500 skilled mechanics and laborers are employed at this yard, and if the battleships and first-class cruisers were taken to this yard for repairs it would result in the employment of from 500 to 1,000 additional men. Expanding the channel at Pinole Point and removing Commission Rock from the Mare Island channel, the largest battleships could be taken to the yard for repairs and this would result in hundreds of thousands of dollars being paid out annually in this State by the Government for additional labor and material.

At the present time all the battleships are taken to the Bremerton station at Puget Sound, to be docked and repaired, but with the improvements above referred to they could and would be all repaired at Mare Island yard.

In addition to the matter above referred to, I would also call attention to the great benefit to be derived from deepening the channel between Antioch and the straits of Carquinez; this improvement would not cost to exceed \$25,000, and would enable deep water vessels to land at Antioch and open up a deep water commerce an immensely productive and fertile region of country.

The importance of the improvement of Oakland harbor, its widening, deepening and extending, has already been recognized by the general Government, and large sums of money have been appropriated and expended thereon. As far back as 1873 a Board of Officers was constituted to make the examination, and plans for Oakland harbor in accordance with the provisions of an act of Congress approved March 3, 1879.

The plans prepared were adopted in 1874, and the work of improvement was placed in charge of Col. Mendell. Congress has since then made appropriations from 20,000 to 25,000 tons; in 1900 it amounted to \$358,212 tons; a twenty-fold increase.

Moreover, since the adoption of these plans, during these years a great change has taken place in the size and character of the ships that come to the harbor, and the extent of the improvements contemplated are quite inadequate to present conditions, to say nothing of those which will soon exist from the tremendous increase of Pacific commerce.

Oakland harbor offers possibilities for one of the best harbors in the world; and I am confident that to be convinced of this the committee need only inspect it. Among the grounds for this statement are:

1. Along its 8 or more miles of frontage the great desideratum of commerce can be met, the coming together of ship and car.

2. It is perfectly landlocked.

3. Its waters are never disturbed by the severest storms from whatever quarter.

4. It is the only section of San Francisco where vessels can be moored in absolute security in any weather, with the entrance of only six miles from the open sea.

5. Its area is sufficiently extensive to accommodate the commerce of the Nation without over-crowding.

6. Its waters are never disturbed by the severest storms from whatever quarter.

7. It is an ideal harbor for shipbuilding, repairing and dry docks.

8. Its entrance is only six miles from the open sea.

Oakland harbor already has the largest yards for the building of wooden ships on San Francisco bay, and these yards, with the great aggregate of aggregate tonnage larger than all other shipyards on the shores of San Francisco bay combined. The largest sailing vessels ever built on the shores of the bay have been launched from Oakland shipyards.

The coal bunkers in Oakland harbor are among the largest in the State.

Along the water front of Oakland, besides the shipyards, are numerous and large factories, comprising cotton and jute mills, foundries, machine shops, planing mills, flour mills, sash and door factories, railroad shops, numerous large lumber yards, and a variety of other industries. With the further improvement of the harbor all these will increase in number and importance.

AGREE UPON A HARBOR PLAN

Senator Perkins and Congressman Metcalf Give Views to Committee.

There was a meeting of the several committees from the commercial organizations of Oakland and Alameda in the Merchants' Exchange last night for the purpose of deciding upon plans for the entertainment of the River and Harbor Committee of the House of Representatives on their arrival in this city.

It was 11 o'clock before it was concluded, and at that time a resolution was adopted recommending the dredging of the harbor to a depth of twenty-five feet up to the Brooklyn basin, which is supposed to be 6,500 feet east of Fallon street, up to which point the present specifications call for such a depth. The cost, it is alleged, of this extra work would be about \$25,000 over the proposed cost of the work contemplated in the present bill before Congress.

Another resolution endorsed the action of Senator Perkins and Congressman Metcalf in the work which they have already done in securing the recognition by Congress of the importance of Oakland harbor and the adoption of amendments to a bill which latter was finally killed only by being talked to death at the last session. ENDORSE REPRESENTATIVES.

The resolutions adopted were as follows:

"Whereas, The visit of the River and Harbor Congressional Committee to Oakland harbor is of the greatest moment to our commercial prosperity; and

"Whereas, The work already completed in our harbor has been productive of the best results; and

"Whereas, The plan as proposed at the last session of Congress for the further improvement of Oakland harbor was most commendable and would have been of great value to the commerce of the port; now, therefore,

"Resolved, That we, the joint committee from the municipality of Alameda and from the Board of Trade and Merchants' Exchange of Oakland, appointed to assist in the entertainment of the River and Harbor Congressional Committee and in their investigations, do hereby give our unqualified approval of the plan as above presented at the last session of Congress by our representatives for the improvement of Oakland harbor, and that we pledge to our representatives our mutual and harmonious support in their further efforts in behalf of our harbor."

EXTENDING THE HARBOR.

The following resolution was then adopted:

"Whereas, We find upon investigation that a very slight increase in the contemplated appropriation under the present plan would greatly enhance the value of the improvement to Oakland harbor, it having been estimated by a competent engineer in the employ of the Government that an expenditure of \$25,000, which is barely 1 per cent of the amount already expended, or 2 1/2 per cent of the amount now available for harbor improvements, would increase the available water frontage 37 per cent, which, practically, means adding 6,500 feet of frontage to the present total frontage, westerly from Fallon street, of 17,500 feet; now, therefore, be it further

"Resolved, That we request our representatives in Congress to present to the members of the River and Harbor Committee the much greater advantages which would accrue to Oakland harbor if the plan for this improvement were changed to the extent of providing twenty-five feet of water in the main channel as far as the entrance to Brooklyn basin; and be it further

"Resolved, That a copy of this resolution be handed to our representatives in Congress."

THE ATTENDANCE.

Those present were: Alameda—Messrs. C. A. Hooper, G. E. Plummer, W. R. Poyser, A. G. Bannister, M. W. Simpson, E. J. Holt, Merchants' Exchange—A. J. Jones, G. W. Arper, H. D. Cushing, D. C. Brown, A. H. Schlueter.

Board of Trade—Sol Kahn, J. P. Taylor, E. C. Sessions, G. W. Fisher, M. J. Keller.

The session was called to order by G. W. Arper, who stated the purpose of the meeting. He called for nominations for chairman.

J. P. Taylor nominated Mr. Arper. J. P. Vandercook nominated E. J. Holt of Alameda.

Arper declined and Holt did also, but the latter finally agreed to serve and was elected.

Mr. Walker, although not a member of any committee, agreed to act as secretary.

On motion of Mr. Arper, it was decided to take up first the subject of dredging Oakland harbor.

J. P. Taylor was called upon and said that they all felt the need of an improvement in the harbor. There was a time when they were satisfied with a depth of 14 feet, but that was not the case now. They had asked for a harbor 500 feet from San Francisco bay and 25 feet deep to Chestnut street; thence 200 feet wide and 25 feet deep to Fallon street; thence 300 feet wide and 25 feet deep to the tidal basin, and thence 300 feet wide and 12 feet deep around the tidal basin.

Mr. Holt asked how far the tidal basin was east of Fallon street.

Maps of the harbor were then produced and each person answered the question to his own satisfaction.

The chair asked Mr. Hooper what he thought of a depth in the harbor of 25 feet.

Mr. Hooper said that 25 feet was good enough, but that 30 feet would be better.

STOPPING PLACE.

The Chair stated that the next question to be discussed would be the stopping place of the improvement. He stated that Alameda had not heretofore taken much interest in the matter, but there was a long stretch on her front that had lately been filled in which she desired to use for wharf purposes. If

the improvement should stop at Fallon street, Alameda would not be able to realize what she hoped at some time to enjoy. To reach the filling in question would require only the dredging of mud, although outside Fallon street there was a stretch of hard pan. The harbor could be extended 3,000 feet and the cost would be about \$4 a foot as against the work further west which cost \$100 a foot.

Mr. Taylor asked how Mr. Holt knew of the nature of the dredging and Holt replied that the knowledge was derived from reports. Mr. Taylor asked if there had been any boring and Holt replied that he thought there had been.

Several gentlemen asked to be excused from speaking on the subject.

Mr. Arper then introduced the resolution which is printed in the foregoing save that it underwent some minor changes in phrasing.

SIGNATURE PERKINS.

Senator Perkins was called upon and, among other things, that every State in the country had from ten to fifty propositions for harbor and river improvements and, of course, it would be impossible to grant all of them. The last Congress assembled there were requests of that kind made amounting to \$150,000,000, but when the requests were before the committee they were reduced to \$20,000,000. He did not know of an instance where Congress had given more than the estimate based upon the recommendation of the engineer. The estimate of the cost of the improvements in the harbor was \$800,000. There was no question but that they could secure that amount in the continuous contract system, but if the subject were to be reopened he could not say what would be the result. At the same time, he was willing to do anything that might be required of him to advance the interests of Oakland harbor.

HON. V. H. METCALF.

Congressman Metcalf endorsed all that Senator Perkins had said. He then detailed the difficulty which both himself and Senator Perkins had in getting the appropriation in the bill which had been the subject of the discussion.

The chairman of the Harbor and River Committee had told him when he went to Washington that no appropriation could be allowed Oakland harbor. At that time, the speaker said that a survey and a report had been made and had been ordered regarding the harbor, and requested the chairman to wait until the report should be received. The report did not arrive, and finally the bill went through the House without the Oakland appropriation.

When the report came, the speaker and Senator Perkins were that day and night in the Senate. He thought that difficulty would be experienced in re-opening the matter, and that, later, additional assistance could be obtained from Congress. At the same time he was willing to do anything which might be required in the premises.

There was a desultory discussion, and finally the resolution, at the suggestion of M. J. Keller, was separated in two parts.

Mr. Metcalf was obliged to leave and later Senator Perkins said that the resolution was a good one and that he ended what the delegation had already done, and suggested the advantages which

would come from more work in the harbor. The question of inviting Alamedans to aid in the reception of the Rivers and Harbors Committee was left to the Committee of Arrangements.

SCHOOL BOARD HOLDS MEETING

High School Principal Will Be Named in Two Weeks.

The meeting of the City Board of Education last evening was enlivened by a protest from residents of the Peralta district because their candidate, Mrs. Wilmot, had not been appointed janitress of the school there. The following petition, having seventy-eight signatures, was presented and read:

"Oakland, June 11, 1901.
"To the Honorable Board of School Directors, City of Oakland, County of Alameda: We, the undersigned, residents and property owners and members of the Peralta Improvement Club, through the Executive Committee, respectfully ask your honorable body what disposition was made of a certain petition emanating from our club and entrusted to Mr. Clift. For some reason or reasons unknown to us it has been withheld. We wish to state that the petition referred to advocated the appointment of Mrs. Wilmot, a widow with four dependent children, as janitress of Peralta school. The oldest child, a boy of 12 years, attends school, but will of necessity be compelled to discontinue in order that he may assist in the family's support.

"Furthermore, we protest against the appointment of Thomas Clift to fill the position of janitor of said school, he being a man well able to work and at the

After the petition had been read E. Barney, a capitalist, made a statement.

"I never received that petition, and Harvey knows it," said Clift. "I ask that this man be compelled to use proper respect in addressing this Board."

Barney was admonished by Chairman Redington to use respectful language.

A motion was then carried to place the petition in favor of Mrs. Wilmot on file.

On behalf of the High School Committee Director Burton reported that a principal for the High school had not yet been selected, but that one would be named and recommended for appointment at the next meeting of the Board.

He said an instructor of modern languages would also be named.

Director Randolph reported for the Committee on School Houses and Sites. The report, awarding contracts for work as follows, was adopted:

General repairs for Lafayette school were also recommended.

The Committee on Rules and Regulations submitted a proposed re-grouping of the school grades. By the proposed re-grouping the high grade is to be made a grammar instead of a primary grade.

The salaries of the teachers of that grade will consequently be raised \$5 a month. If the re-grouping is adopted.

GREAT FEAST OF THE PEACHERINOS

Haywards' Prominent Citizens
Join the Merry Band and
Make Speeches.

HAYWARDS, June 18.—Sunday the "Peacherinos" gave a barbecue which was by far the greatest outing in the community for years. The first thing on the program was the feast.

It consisted of rare dishes cooked and served under the direction of Peter Morilla, who is authority on all matters pertaining to a feast. After the feast, which lasted for several hours, speeches were made.

G. S. Langman spoke on American. The address fired the patriotic crowd. The applause which followed was deafening. Dr. A. J. Powell spoke on California, which also brought mighty applause. George A. Oakes made a very able address on the press. Captain Miller of Berkeley and a number of others spoke on various subjects.

After the speaking came the musical part of the program. The Foresters' band, which is one of the best, started out with a number of lively tunes. Will Allen and Manuel Rogers played several pieces on the mandolin and guitar. T. Thordike and Mary Hines rendered solos on the cornet. Tony Enos treated the club with several vocal solos. Tony has a tenor voice, and the crowd were loath to let him quit. He was called back again and again, until finally, out of breath, they allowed him a rest.

There were about forty members and their friends present. They consisted of the principal business men about town. The feast was served under an immense oak on two long tables, which were crowded with one of the juiciest crowds ever gathered together at one time.

The affair was gotten up under the supervision of G. S. Langman and Frank J. Hotting, to which gentlemen the success of the feast is largely due, although each member helped.

Every one is sore from tramping over the hills, and it will be some time before they can all settle down to business.

The clerk was instructed to reply at once and to state that the offer would be gladly accepted by the Board.

The communication from the Contra Costa Water Company, objecting to the sprinkling of the streets with salt water was read and the clerk instructed to inform the Water Company that the agreement between that company and the city had not been violated, as it has been the custom of the city to use salt water on the streets for the past ten years.

The clerk was instructed to advertise for bids for oil to be used in the Electric Light plant during the ensuing year. Specifications as to the quality of the oil were filed.

Mrs. White filed a complaint against Police Officer Keyes, charging him with using abusive language and disturbing her peace.

A communication from William H. Webb requesting a reduction in the price of power secured from the city electric light plant and used by him in operating his automobile, was denied.

The stalls in the Webb avenue and Fourth street fire houses were ordered repaired.

There being no further business to come before the Board the meeting adjourned.

FUNERAL OF THE LATE MRS. THERESA THOMPSON.

IRVINGTON, June 18.—The funeral of Mrs. Theresa Thompson, wife of E. B. Thompson, publisher of the Washington Press, was held yesterday afternoon from the Thompson residence at Irvington, where gathered many friends to pay their last tribute of respect to the dead. The services were conducted by the Rev. G. Crump, rector of the Episcopal Church. Many floral offerings surrounded the bier, among them a beautiful cross from the Rebekah Degree Lodge of which Mrs. Thompson had been a valued member. The honorary pall-bearers were N. L. Bath, E. S. Haight, A. A. Montross, J. D. Ford, H. Crowell, A. O. Rix. The grave pall-bearers were T. D. Witherly, George Habb, Dr. H. B. McWham, E. B. Usher, George Cash and S. B. Vanderwoort.

MISSING MAN'S BODY FOUND IN A FIELD.

BERKELEY, June 18.—In a grainfield near Wild Cat Canyon, the body of Julian Regusci, a dairy man who disappeared from the Sweet Briar ranch on May 2nd was found yesterday afternoon. In the right hand of deceased was grasped a revolver that had ended his life. He had shot himself a few inches beneath the heart.

The inquest will be held at the Sweet Briar ranch Friday.

It was supposed that Regusci had left for Los Angeles, and several attempts were made to locate him. Though it is a clear case of suicide, his friends can assign no reason for the rash act.

Five more for the list have been selected by the University. They are Laura L. Donnelly of Covina, Dolores Machado of Santa Monica, May J. Abbott, a graduate of the Chico State Normal School, William C. Spencer, now teaching in the Mount Tamalpais Military Academy at San Rafael, and Howard C. White of the last graduating class. They will sail early in July.

BURIAL ORDINANCE FAILED TO PASS.

Concedman Courtney's ordinance to compel payment of a \$1 fee for every burial permit issued was defeated last night.

Courtney first moved an amendment to strike out the clauses prohibiting the carrying of dead bodies over Broadway and Washington streets, but even with this feature eliminated the ordinance did not go through.

There was considerable discussion over the matter.

Professor Wallace wished to know "who is to pay the fee, the undertaker or friends of deceased."

President Schaffer replied that while the undertaker would probably put up the fee, without doubt the friends of the deceased will eventually have to pay the undertaker.

Councilman Fitzgerald said he thought the amount of the fee—\$1—was so small, it wouldn't pay to collect it.

"Is that so?" said Mr. Courtney. "Well, it'll amount to just about \$200."

But the ordinance failed of passage.

BARBERS VOTE AGAIN TO CLOSE ON SUNDAYS.

There was another midnight session of the Barbers' Union last night, and after a heated debate it was finally determined by a vote of 37 to 20 that on and after the first Sunday of July all barber shops must remain closed on Sundays. The opposition was of the most bitter kind, and many barbers remained away from the meeting, because either they were opposed or indifferent. This was the third vote taken on the matter of Sunday closing.

On the first occasion the proposition carried by a majority of one. On the second vote there were 57 in favor and forty-eight against.

It is even now hinted that this final action is only for a trial, and if it is later found more advantageous to keep open Sundays the rule will be changed again.

Some of the barbers will refuse to stand by the ruling and will keep open on Sunday.

WICKED WILL BURN FOREVER.

Such Is the Doctrine Preached by an Alameda Minister.

ALAMEDA, June 18.—In a sermon on "Hell" delivered at the Christian chapel last evening, the Rev. Dr. J. W. Ingram, the pastor, expressed the belief that the wicked may burn in hell forever.

"It is to be feared," said Dr. Ingram, "that the awful punishment of the burning place where the ungodly must go after death will know no end; that the punishment will go on forever. From the Scriptures we may draw the following conclusions:

"First—There is such a thing as punishment after death—at least until sin has been adequately punished.

"Second—That there is a place of punishment, and that place is most loathsome.

"Third—That men go to this place not because God has so decreed, but because they have selected a life that logically leads to such a destiny.

"Fourth—That the exact nature and duration of this punishment have not been clearly indicated in the Scriptures, but that in every instance where the Bible places the sinner in a place of punishment after death he is left there with no promise of release.

"Fifth—It seems left to man to devise a way for his escape. Human wisdom would suggest that we leave the whole matter just where the Bible leaves it. If God can be trusted in any matter, surely we may trust Him to do right in this case."

Dr. Ingram asserted it as his belief that all the figurative language in the Bible could not adequately show forth the awful condition arising from a life of sin and crime.

MINISTER RIDES IN THE PATROL WAGON.

Policemen are no respectors of persons, when it comes to violating the bicycle ordinance. Preachers, college professors and all are alike to them. The latest victim is the Rev. William Horace Day, who is filling the pulpit of Rev. Charles R. Brown at the First Congregational Church. He rode in from Berkeley on his wheel the other night, without a light, while his wife rode on the car. He was arrested and taken to the city Prison in the patrol wagon, and had to appear in the Police Court, where he had to pay the regulation fine of \$2.

EXCELLENT PERFORMANCE AT THE DEWEY THEATER.

The double bill at the Dewey Theater last evening drew a crowded house. "What Tompkins Did" was one of the funniest sketches ever seen at the theater. The Chinese play, "First Born," was the grand climax of the evening. It was produced at the Dewey better than it was presented at the Alcazar in San Francisco. Mr. Stevens deserves great credit for giving such a fine performance.

MISS PEARL HUMPHREYS MAY BE SEEN HERE.

Miss Pearl Ola Humphreys, the talented Oakland girl who made such a hit back East where she has been engaged during the past couple of seasons at the leading New York theaters, will probably be induced to forego the vacation she is enjoying at her home here and accept a couple of months' engagement at the Alcazar across the bay.

Manager Thall realizes that her appearance would be a popular card for the house owing to her many friends and acquaintances here, and a contract will probably be signed during the next few days.

Miss Humphreys' stay on the Coast will be necessarily limited, however, as she is under contract for the leading role in Sullivan & Harris' "The Fatal Wedding," to be produced in New York this August, after which she is booked for Dave Belasco's new play, the staging of which is expected in December. Her success has been very pronounced ever since she entered upon her theatrical career, and a brilliant future is predicted for her by Eastern managers. Her brother, Oval, also a New York Thespian, accompanied her to the Coast and will join the Alcazar Stock Company for a season or two.

Among those who showed unusual proficiency were the following: The Misses Bernstein, Master Bernstein, Dotie Egbert, Doyle Bernstein, Netta Miklan, Edlie Egbert, Etta and Netta Lewis, Leah Bernstein, Etta Lewis, Edward Bernstein. Refreshments were served.
